Describe Cause of Problem and Remedial Action Taken.* On August 9, 2018 an Enterprise technician discovered a release of natural gas on the Lateral 2C-40 pipeline. The pipeline was isolated, depressurized, locked out and tagged out.
Describe Area Affected and Cleanup Action Taken.* Repairs and remediation are in progress. The contaminant mass will be removed by mechanical excavation. A third party corrective action report will be included with the "Final" C-141.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
