RE: Condition of Approval for Extension Section 30 Recycling Containment and Facility #3RF-3 September 3 – September 30 HAAD

PCS 1523130486

"WOCD

OCT 1 2 2018

Dear Mr. Perrin,

Pursuant to Order R-14314, WPX submitted a C-103 for a 6-month extension request for cessation of operations on August 23, 2017, for the Section 30 Recycling Containment and Facility (#3RF-3) located in Section 30, Township 31N, Range 5W, Rio Arriba County, New Mexico. Approval of the 6-month extension was granted by Director David Catanach on August 25, 2017. Conditions of Approval (COA) of the C-103 are listed below. This report is being submitted to satisfy the monthly report requirement.

1.0 Conditions of Approval

Approval of the extension was granted with the following COA:

- 1) Take necessary actions to keep fresh water accumulation within the containment to a minimum and prevent damage from freezing.
- 2) Inspect and take photographs of the Facility weekly.
- 3) In the event of leaks of damage to the Facility, the operator must do the following.
 - a. Notify OCD District III within 72 hours of knowledge of leaks or damage.
 - b. Submit a Corrective Action Plan (CAP) to repair leaks or damage within seven days of notification above.
 - c. Upon OCD's approval of the CAP, complete repairs per the OCD-approved schedule.
- 4) By the 15th of the month, submit monthly reports to OCD District III of inspection results with photographs and progress on CAP's if any.
- 5) Verify liner integrity before returning the containment to service.

2.0 Weekly Inspections

LOGOS continues to monitor the condition of the Section 30 Recycling Containment. Attached is a summary of weekly inspections conducted at the containment from September 3 – September 30. Also attached is a photograph log documenting site conditions during September 3 – September 30.

stotus cr

3.0 Recent Event Summary

- No new leaks have been discovered and previous repairs have held.
- A minimal amount of water was pumped from leak detection between the weeks of September 3 September 30. Leak detection volume increased between 9/20 and 9/21/18, may have been due to weather.
- LOGOS personnel continue to search and inspect the liner for any potential areas of concern along the base of the containment and is gathering information for next steps forward for the containment.
- Per email received on 8/6/18 from Aztec OCD office the measured volume that was removed from the leak detection during each pumping event is attached.

This report was submitted on 10/12/18, the next report will be submitted to the Aztec office by November 15, 2018. For additional information or questions regarding current site conditions, please contact me at 505-324-4145.

Sincerely,

۲

Tamra Sessions Regulatory Specialist
