 Andrews, Texas 79714

Attention: Mr. B. O. Ingram

Administrative Order TX-70

Gentlemen:

Reference is made to your request for an exception to the tubing setting requirements as contained in Division Rule 107 (d) (3) for the below-named well.

Pursuant to the authority granted me by Rule 197 (d) (4), you are hereby authorized to set tubing at 10,307 feet in the following well:

<u>LEASE NAME</u>	<u>WELL NO.</u>	<u>UNIT</u>	<u>S-T-R</u>
Gourley Federal Com	1	B	28-22S-38E

The Division reserves the right to rescind this authority in the event that waste appears to be resulting therefrom.

Very truly yours,

JOE D. RAMEY  
 Division Director

New Mexico Oil Conservation Commission  
Joe D. Ramey, Secretary-Director  
P. O. Box 2088  
Santa Fe, New Mexico 87501

Dear Mr. Ramey:

Exxon Corporation respectfully requests an administrative exception to New Mexico Oil Conservation Commission Rule 107 (d) (3) for the above well.

The well is producing from the Atoka formation through casing perforations 11,372-11,378 with tubing stung into a dual packoff assembly at 10,307 feet. The well produced dry gas (SG=0.583) on a four point test with the following results:

<u>Point</u>	<u>Tubing Pressure</u>	<u>Flow Rate, MCFPD</u>
SI	5585	
1	5436	414
2	4470	1896
3	3459	3363
4	2635	4598 CAOFP=6086 MCFPD

We believe that no waste will be caused by producing the well in this manner.

Please indicate your approval of the request by signing below and returning a copy of this letter to the above address.

*No liquids recovered*

Very truly yours,

*B. J. Ingram*  
B. J. Ingram
