Re: Injection Pressure Increase *IPI-334*
 Maljamar Grayburg Unit No. 78
 Maljamar Grayburg Pool
 Lea County, New Mexico
PKAA0909852240

Dear Sir:

Reference is made to your request of February 26, 1986 to increase the surface injection pressure on your Maljamar Grayburg Unit No. 78 Well. This request is based on a step rate test conducted on the well on February 17, 1986. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase your surface injection pressure on the following well.

<u>Well & Location</u>	<u>Maximum Injection Surface Pressure</u>
Maljamar Grayburg Unit No. 78 Section 3, T-17S, R-32E, Lea County, New Mexico	968 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or it is endangering any fresh water aquifers.

Sincerely,

R. L. Stamets
 R. L. Stamets
