Re: Injection Pressure Increase IPI-336
Teas Yates Unit No. 1-2
Section 18, T-20S, R34E,
Lea County, New Mexico
PKAA 0909854539

Dear Sir:

Reference is made to your request of April 18, 1986 to increase the surface injection pressure on your Teas Unit No. 1-2. This request is based on a step rate test conducted on the well on April 10, 1986. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase your surface injection pressure on the following well:

<u>Well & Location</u>	<u>Maximum Injection Surface Pressure</u>
Teas Yates Unit No. 1-2 Section 18, T-20S, R-34E Lea County, New Mexico	1470 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or it is endangering any fresh water aquifers.

Sincerely,

R. L. STAMETS
Director
