RE:

Administrative Approval to Downhole Commingle

Energen Resources Corporation

Jicarilla 119N #7

1190 FSL, 1190 FEL, Sec. 8, T26N, R4W, N.M.P.M.

Rio Arriba County, New Mexico

Dear Ms. Wrotenbery:

Energen Resources Corporation, requests to downhole commingle the Tapacito Pictured Cliffs and Blanco Mesaverde pools in the subject well. The well is currently producing as a Pictured Cliffs/Mesaverde dual completion. The Pictured Cliffs zone has experienced liquid loading problems and it is felt downhole commingling will eliminate excessive operational problems and allow the Mesaverde flow stream to aid in keeping the Pictured Cliffs zone unloaded and producing.

To comply with New Mexico Oil Conservation Rules, Energen Resources Corporation, is submitting the following data for your approval of the proposed commingling:

- 1. For C107A – Application for Downhole Commingle
- 2. C102 - Location plat showing each spacing unit and dedicated acreage
- Production curves for both the Pictured Cliffs and Mesaverde 3.
- 4. Offset operator plat
- Well location plat 5.

In accordance to New Mexico Oil Conservation Division Rule 303C, all offset operators are being notified of this application by certified mail. As an offset operator, if you have no objection to this application, you do not have to respond to this notification.

If additional information is needed, please contact me.

Gary W. Brink

Production Superintendent
