Dear Mr. Stogner:

Marbob Energy Corporation would request approval of an unorthodox gas well location as described above. This location was originally staked at 1980' FSL and 1980' FEL at an orthodox location. This location fell in the bottom of an arroyo and as such it needed to be moved. We reviewed alternate locations to the east which would have kept us orthodox but we encountered pipelines and power lines which prevent any reasonably close offset. As such we moved west to proposed location which is unorthodox to internal quarter quarter line. Since this location is still orthodox at any shallow recompletion opportunities we would request your approval.

Enclosed is a copy of form C-102 showing the location and proposed proration unit. Also enclosed is a map showing the proposed proration unit and the offset proration units. Operators in those proration units are EOG Resources, BP America Production Company, Devon Energy Corporation, Seely Oil, Chesapeake, and BTA. A copy of the notice letter is enclosed as a part of the application. When we receive all of the green cards we will forward a copy of them for your file.

If you have any questions, please contact me.

Sincerely,

Raye Miller
