If a Watercourse was Impacted, Describe Fully.\*

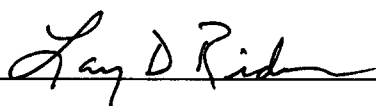

Describe Cause of Problem and Remedial Action Taken.\*

Leak in fiberglass injection line. Well was shut in upon discovery. Vacuum truck picked up water on top of ground. Line will be repaired.

Describe Area Affected and Cleanup Action Taken.\*

Affected area is approximately 400' x 50'. (Land was sloping so water ran before pooling up.) Rain water was also a factor. Soil will be tested to determine actual extent of leak and will be remediated as necessary.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
