RE: Administrative Approval to Downhole Commingle  
Energen Resources Corporation  
Bolin A #2  
820' FNL, 1460' FWL, Sec. 34, T29N, R8W, N.M.P.M.  
San Juan County, New Mexico

Dear Ms. Wrotenbery:

Energen Resources Corporation requests administrative approval for downhole commingling the WC;29N8W34C Fruitland Sand and Blanco Pictured Cliffs pools in the subject well. The well is currently producing as a Fruitland Sand/Pictured Cliffs dual completion. The Pictured Cliffs zone has experienced liquid loading problems and it is felt downhole commingling will eliminate excessive operational problems and allow the Fruitland Sand flow stream to aid in keeping the Pictured Cliffs zone unloaded and producing.

To comply with New Mexico Oil Conservation Rules, Energen Resources Corporation is submitting the following data for your approval of the proposed commingling:

1. For C107A – Application for Downhole Commingling
2. C102 – Location plat showing each spacing unit and dedicated acreage
3. Production curves for both the Fruitland Sand and Pictured Cliffs
4. Offset operator plat
5. Well location plat

In accordance to New Mexico Oil Conservation Division Rule 303C, all offset operators are being notified of this application by certified mail. As an offset operator, if you have no objection to this application, you do not have to respond to this notification.

If additional information is needed, please contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Gary W. Brink", written over a horizontal line.

Gary W. Brink
