Picked up standing fluids, contaminated soils were excavated, hauled to an OGD approved land facility. Vertical and horizontal delineation will be made and corrective action taken. Depth to Ground Water: < 50'; We head Protection Area: No; Distance to Surface Water Body: > 1000'; SITE RANKING IS 20.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCID rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCID marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCID acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
