RE: Unorthodox Location
Administrative Approval Request
George Federal Com #2
570' FNL & 1700' FWL
Section 5, T-20S R-32E
Lea County, New Mexico

Dear Mr. Ezeanyim:

Marbob Energy Corporation respectfully requests administrative approval for an unorthodox location of the George Federal Com #2 as referenced above. Enclosed is a copy of the OCD Form C-102 showing the proposed well spacing unit. Behind that is a map showing the proposed well, the original well in the proration unit and the offset spacing units and the affected spacing unit. The well location is unorthodox to the North boundary by 90 feet. The affected proration unit is operated by Marbob Energy Corporation. The next map in the packet shows an ariel view of the proposed section. This section, particularly in the West half is comprised of shinnery oak, grass and sand dune habitat which is home to the sand dune lizard which is on the state threatened species list. The surface and minerals owned in this section are Federal and the BLM has asked that we minimize our impacts in this area because of species/habitat issues. As you can see our location is just north of an existing road. What is not apparent from the ariel picture is the fact that a high pressure gas line also is buried on the South side of the road. As such we moved as close to the pipeline as possible but that left us 90 feet unorthodox to a standard location. We explored the option of moving south of the pipeline to build our location but the habitat impacts were far greater at that alternative and the BLM wanted the location on the North side. This location would be orthodox for any shallow horizons including the Delaware and Bone Springs and would only be unorthodox as to the deep horizons. We have worked with our geologist and biologist and this appears to be the best compromise location that everyone has agreed to. The BLM has approved the Application to Drill subject your approval.

Also this location is in the potash area but it has received approval for drilling. The offset proration units are listed below with their operator:

S/2	Section 4	T-20S R-32E	Marbob Energy Corporation
N/2	Section 4	T-20S R-32E	Marbob Energy Corporation
S/2	Section 5	T-20S R-32E	Marbob Energy Corporation
E/2	Section 6	T-20S R-32E	Marbob Energy Corporation
S/2	Section 31	T-19S R-31E	Marbob Energy Corporation
All	Section 32	T-19S R-31E	Marbob Energy Corporation
W/2	Section 33	T-19S R-31E	Edge Petroleum Operating Company, Inc.

Each offset operator has received a copy of this application and additional notice has been provided to Cimarex Energy Company as a working interest owner in the affected proration unit, the State Land Office as the royalty owner in the affected proration unit, and the BLM as the royalty owner in the offset proration units. A copy of those letters are attached. We will forward copies of the green cards to your attention when we receive them back. We would request your approval of this unorthodox location.

If you need additional information or if I have not been clear in my explanation of the circumstances surrounding this request please contact me.

Sincerely,

Raye Miller
