

Monday - 8/11/2003 (PM)

Talked w/ Jim Bruce
twice -

I must have mis-blued
his correspondence of 8-5-2003.

Will send over a duplicate
BSP.

8/21/2003 ~ 9:00 PM

Met w/ Jim Bruce in my office. Asked
where Devon stood on answering my 8/13/03
e-mail. The requested information is in
his office and will be submitted BSP.

I received your August 5th information yesterday. Thanks.

After reviewing this application along with your supplemental data dated 8/5/2003 and 8/8/2003; what is Devon's plans for the Glorieta-Yeso within its existing 40-acre oil spacing and proration unit to the immediate south comprising the NE/4 SE/4 (Unit I) of Section 35, which is currently dedicated to its Logan "35" Federal Well No. 2 (30-015-30436), located 2100' FSL & 840' FEL of Section 35?

Who did you hand it off to! Was it me.

I remember getting something on the other Eagle 35H well. That application was approved.

Mike: I hand delivered it to the Division last Tuesday. I'll fax you the cover letter, but there's an aerial photo I'll need to deliver to you.

Re: Application of Devon Energy Production Company, L.P. for
administrative approval of an unorthodox oil well
location:

<u>Well:</u>	Eagle 35H Fed. Well No. 14
<u>Location:</u>	2560 feet FNL & 760 feet FEL
<u>Well Unit:</u>	SE 1 ⁴ NE 1 ⁴ of Section 35, Township 17 South, Range 27 East, NMPM, Eddy County, New Mexico

Administrative application reference No. pMES0-319250237

Dear Mr. Stogner:

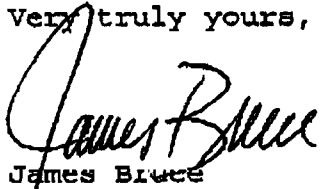

You asked for information on Devon's plans for another well in the offsetting NE~~1~~⁴SE~~1~~⁴ of Section 35. Attached as Exhibit 1 is a plat showing Devon's Glorieta-Yeso wells in the SE~~1~~⁴ of Section 35. Please note: (1) The leases in the SE~~1~~⁴ of Section 35 derive from a single federal lease, with common overriding royalty ownership; and (2) there are six Glorieta-Yeso wells in the SE~~1~~⁴, three of which are in the NE~~1~~⁴SE~~1~~⁴. Therefore, Devon believes that the correlative rights of the interest owners in the NE~~1~~⁴SE~~1~~⁴ of Section 35 are adequately protected.

Devon did permit a second well in the NE~~1~~⁴SE~~1~~⁴ of Section 35. However, that well has not been drilled, because it would be too close to the existing well in that quarter-quarter section.¹

¹The existing well is somewhat out of the northeast-southwest drilling plan because of surface considerations.

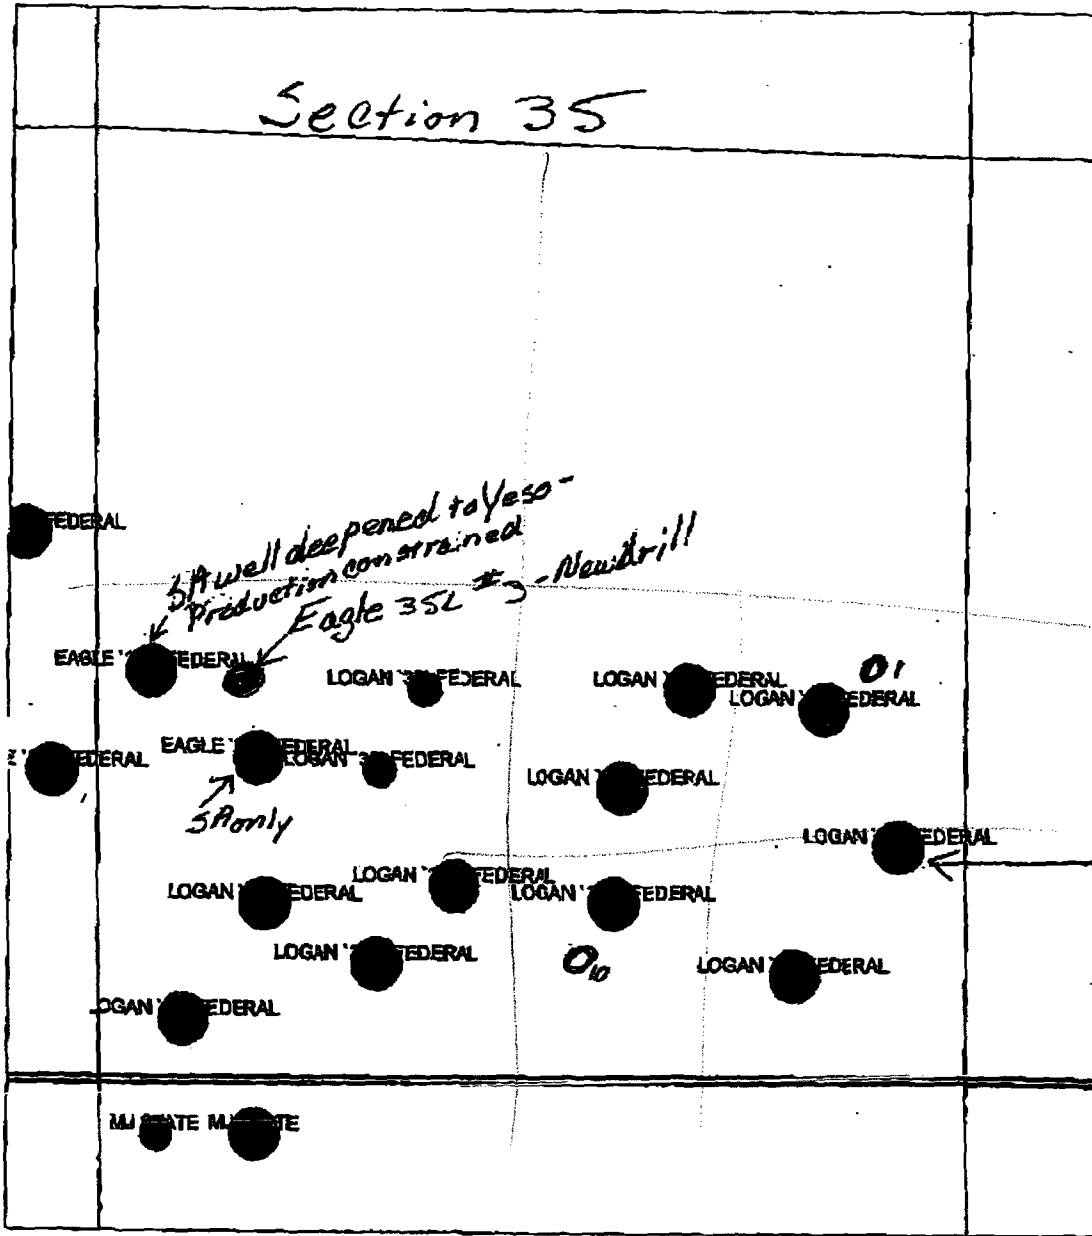

Please let me know if you need additional information to process this application. Thank you.

Very truly yours,

A handwritten signature in black ink, appearing to read "James Bruce". The signature is written in a cursive style with a large initial "J".

James Bruce

Attorney for Devon Energy Production Company, L.P.

locations that were not drilled because too close to existing well

This well is 1310' FSL & 400' FEL
