*Administrative Order NSL-3572 (NSP)*

Dear Mr. Thompson:

Reference is made to your application dated March 10, 1993 for a non-standard coal gas well location for your Florance Gas Com "H" Well No. 1 which was drilled in November 1992 2160 feet from the South line and 410 feet from the West line (Unit K) of irregular Section 30, Township 30 North, Range 9 West, NMPM, Basin Fruitland Coal (Gas) Pool, San Juan County, New Mexico. Lots 1 through 4 and the E/2 W/2 of said Section 30 shall be dedicated to the well forming a non-standard 207.84-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rules 8 and 6 of the Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool as promulgated by Division Order No. R-8768, as amended, the above-described unorthodox coal gas well location and non-standard gas spacing and proration unit are hereby approved.

Sincerely,

William J. LeMay  
Director
