

MAIN OFFICE DCC
RECEIVED 11:48
PACIFIC NORTHWEST PIPELINE CORPORATION

413-1/2 West Main Street

Farmington, New Mexico

September 19, 1955

Mr. W. B. Macey, Chief Engineer
125 Mabry Hall, Capitol Building
Santa Fe, New Mexico

Dear Mr. Macey:

Pacific Northwest Pipeline Corporation is requesting permission to drill a Mesa Verde test on an unorthodox location. The Indian "I" No. 1 is staked 980 feet from the North line and 900 feet from the West line of Section 27 T28N R3W, Rio Arriba County, New Mexico.

Pacific owns the mineral rights on all of Section 27 and no offset acreage other than Pacific's is involved; therefore no other operators have been notified.

The Mesa Verde formation is being tested in conjunction with the Pictured Cliffs formation. Should both prove productive, a request for dual completion will be made. Should the Mesa Verde prove nonproductive, the well will be plugged back and completed in the Pictured Cliffs formation.

Yours very truly,

T. A. Dugan
District Engineer
