Attention: Ms. Shay Stricklin

**RE: *Injection Pressure Increase
Littlefield Federal SWD Well No. 1
Eddy County, New Mexico***

Dear Ms. Stricklin:

Reference is made to your request received by the Division on December 6, 2006, to increase the surface injection pressure on the Littlefield Federal SWD Well No. 1. This request is based on a step rate test conducted on the well on October 26, 2006. The results of the step rate test show that an increase in the surface injection pressure for this well is justified and will not result in the fracturing of the injection formation and confining strata.

You are therefore authorized to increase the surface injection pressure on the following well:

<i>WELL NAME & NUMBER</i>	<i>MAXIMUM SURFACE INJECTION PRESSURE</i>
Littlefield Federal SWD Well No. 1 API No. 30-015-10259 Unit B, Section 11, T-24 South, R-31 East, NMPM, Eddy County, New Mexico	2000 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected fluid is not being confined to the injection zone or is endangering any fresh water aquifers.
