Re: Capataz Operating, Inc.
Chesterfield #1 & Rotan #1
Section 14-T20S-R38E
Lea County, New Mexico

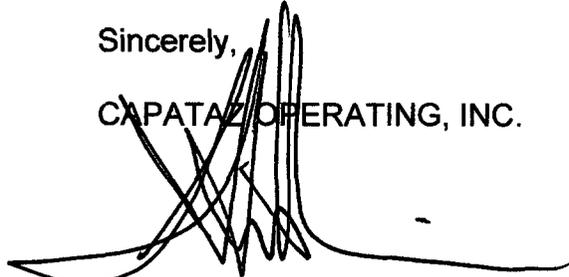

Dear Mr. Ezeanyim;

On August 4, 2006 this office forwarded to the NMOCD our request to classify the captioned wells as non-standard proration unit wells in the Blinebry Oil & Gas (gas) Field. In this application I erroneously asked for 80 acre spacing for each of these two wells. The spacing requested should have been for 40 acres for each well. Our experience in the Blinebry formation in this field has proven that the reservoir is too tight to effectively drain over 40 acres even after the wells have been fracture stimulated. Production rates and outset well data suggests that even after we acidize and then fracture treat each well there is no indication of offset drainage from the wells producing in the immediate 40 acre offset proration unit. This conclusion is based upon completing over 25 wells in the area and observing their production for extended periods of time.

Kindly, approve our request to designate the Chesterfield and Roitan wells a non-standard proration unit wells each with a forty acre producing proration unit. Your assistance in this matter is greatly appreciated.

Sincerely,

CAPATAZ OPERATING, INC.

H. Scott Davis
President

Re: Capataz Operating, Inc.
Chesterfield # 1 & Roitan #1
Sec. 14-T20S-R38E
Lea County, New Mexico

SHOULD BE
40 ACRES

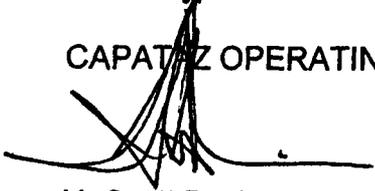

Dear Mrs.Mull;

Enclosed please find C-102 forms for the captioned wells. By this correspondence Capataz seeks to establish 80 acre non-standard proration units for both the Chesterfield and Roitan wells as shown on the attached forms C-102. These two wells were both initially completed as Blinbry oil wells. Well work subsequent to the initial completions of these wells resulted in higher GORs and the need to re-classify them as gas wells in the Blinbry Oil & Gas (gas) Field.

Your assistance in re-classifying these two wells is appreciated. Should you require or desire additional information related to either of these wells please call and I will make every effort to provide whatever you need.

Sincerely,

CAPATAZ OPERATING, INC.

H. Scott Davis

Re: NSP/NSL request from Capataz
Roitan #1 & Chesterfield #1 Wells
Section 14, T20S, R38E
Lea County, New Mexico

Gentlemen,

Effective August 1, 2006, Apache Corporation ("Apache") took over as operator of the Roitan #1 and the Chesterfield #1 wells located respectively in the SW/4NE/4 and SE/4NE/4 of Section 14, Township 20 South, Range 38 East, Lea County, New Mexico. Apache is also the operator of all the offset production and agrees that the offset production and correlative rights will not be affected by production from the two referenced wells. Apache also agrees to waive any objection to approving the requested NSP/NSL, sought by Capataz, for these two wells.

Should you have any questions, please contact Rick Crist, our Production Engineer, at (918) 491-4800 or you may contact Michelle Hanson, our Landman, at (918) 491-4838.

Yours truly,

Jon Hale
Production Engineering Manager, Central Region
