Re: Application for Non-standard
Gas Well Location in Elinebry
Gas Pool for Sinclair's A. M.
York "A" Well No. 1

NSL-151
(On operator's
pending
Rule Set.
3)

Gentlemen:

Please refer to your letter of August 8, 1958 and to Sinclair's application for an 80 acre non-standard gas proration unit for subject well in Elinebry Gas Pool dated August 1, 1958. Sinclair Oil & Gas Company makes this application for approval of an exception to Rule 2 of Order No. R-610 to provide an unorthodox location for subject well.

In this connection, Sinclair wishes to state:

(1) Sinclair's A. M. York "A" Well No. 1 is located 330' from the East line and 2310' from the North line of Section 20-21S-37E, Lea County, New Mexico, which is 330' from the East & South lines of the pending 80 acre non-standard proration unit. This unorthodox location is occasioned by the dual completion of subject well which has produced from the Drinkard Formation since November 16, 1947.

(2) All Operators within a 1320' radius of subject well as listed below, have been notified of this application by copy thereof this date.

Sinclair Oil & Gas Company respectfully requests than an administrative exception be granted to said Rule 2 and that subject well be approved for the assignment of the pending 80 acre non-standard gas proration unit.

I hereby certify that the information contained in this application is true and complete to the best of my knowledge and belief.

Yours very truly,

SINCLAIR OIL & GAS COMPANY

By 
R. F. Higginbotham,
