OIL OFFICE OCC

Dear Mr. Porter:

This is a request for administrative approval of an unorthodox location in the Horseshoe Canyon-Gallup Pool. Our request is made on the basis that the existing topographic conditions would create a prohibitive cost in an attempt to drill the orthodox location. We therefore propose to drill the Banner Drilling Company Horseshoe Ute #1 well 445' from the south line and 202' from the west line of Section 34, Township 31 North, Range 16 West, N.M.P.M., San Juan County, New Mexico. The SW/4 SW/4 of Section 34 is dedicated to this well. The well will be drilled into the Dakota formation and all possible producing zones will be tested.

notice

This well is to be drilled on a farmout from El Paso Natural Gas Products Company who is the record lessee in Section 34 and also in the offset Section 33 to the west. They have been notified by registered mail and requested to forward their approval direct to your office.)

Attached hereto are two copies each of the acreage plat illustrating the topographic conditions involved.

Re: Unorthodox Location
Banner Drilling Company
Horseshoe Ute #1 Well, SW/4 SW/4,
Section 34, Township 31 North, Range 16 West
San Juan County, New Mexico

Dear Mr. Porter:

By registered letter of May 19, 1958, Banner Drilling Company has requested this company's approval, as offset operator, of an unorthodox location in the Horseshoe Canyon-Gallup Pool which they propose to drill 445' from the South line and 220' from the West line of Section 34, Township 31 North, Range 16 West, NMPM, San Juan County, New Mexico, which well will be known as the Banner Drilling Company Horseshoe Ute #1.

El Paso Natural Gas Products Company is the operator of those lands offsetting this proposed unorthodox location to the East, West, North, and South, and this letter will constitute our approval to the drilling of this well in the above described location.

Very truly yours,

EL PASO NATURAL GAS PRODUCTS COMPANY
