(waiver)*

Dear Sir:

*Robinson*

Enclosed is a plat of a portion of Lea and Eddy Counties showing the relationship of the proposed unorthodox location which Mr. Mose Armstrong talked with you about, by telephone, when you were in Hobbs on October 27, 1959. We were advised by our geologist that it would be to our interest to locate our Taylor 3, 330 feet from the South line and 1650 feet from the West line of Section 30, Township 16 South, Range 32 East.

When the location was staked, it fell about 12 feet West of Taylor draw which is about 10 feet deep and 40 feet wide. By moving 65 feet West we will have room for our mud pits but this moves us to 265 feet from the edge of the 40 acre tract. You will note that the adjacent 40 acre tract to the West is a part of the same A. C. Taylor lease held by this Company.

If we tried to move to the East we would have to move 300 feet to get to terrain level enough for a location.

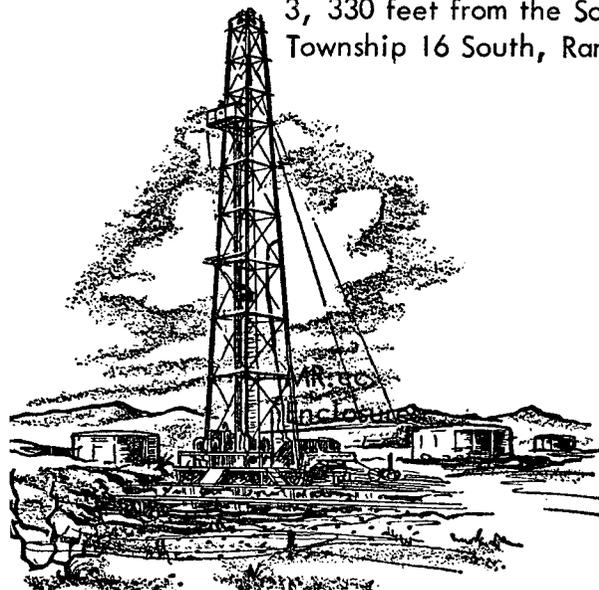

We are asking administrative approval to locate the Taylor 3, 330 feet from the South line and 1585 feet from the West line of Section 30, Township 16 South, Range 32 East.

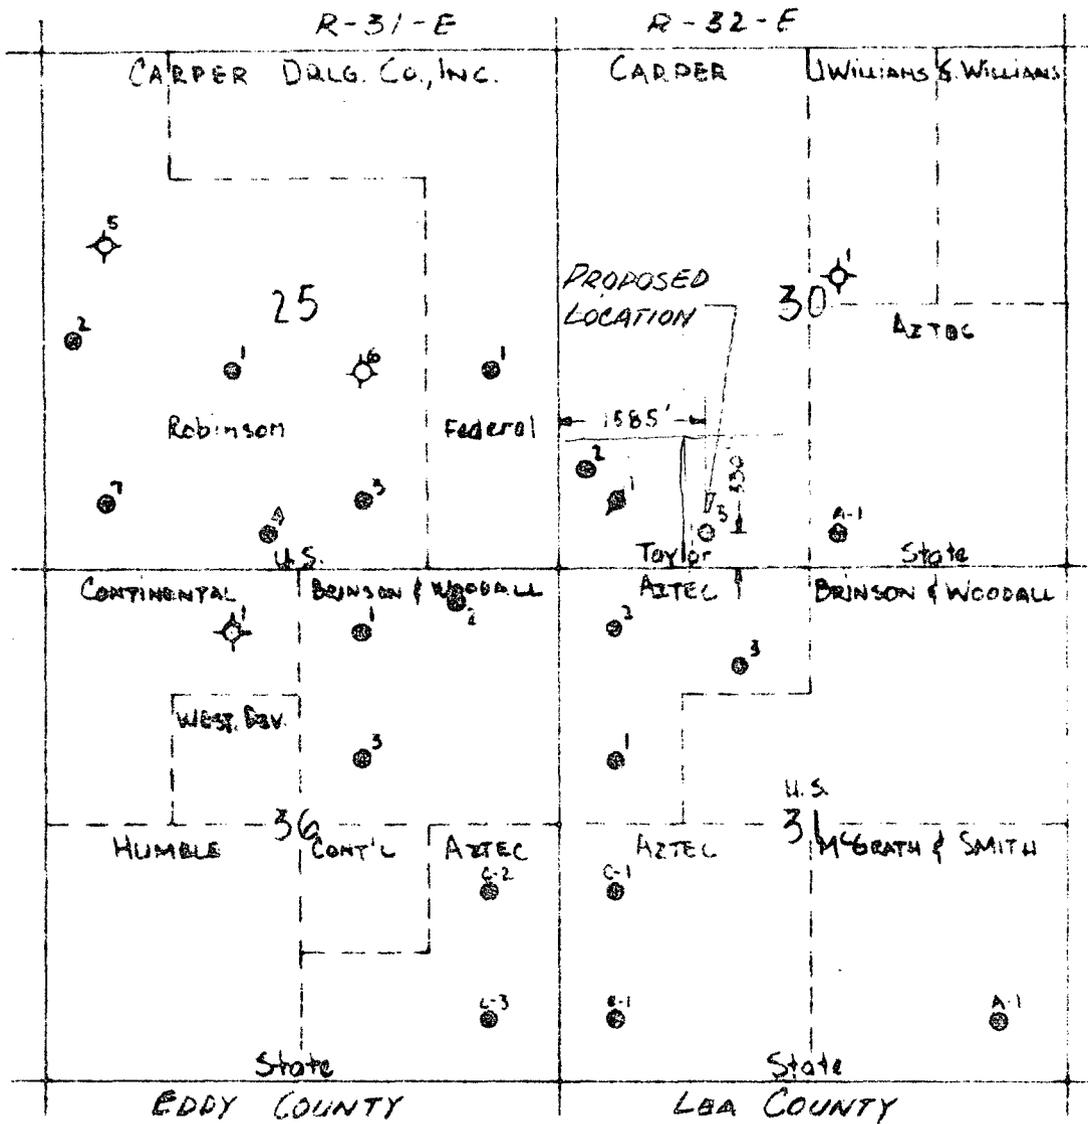

Yours very truly,

CARPER DRILLING COMPANY, INC.
