Dear Sir:

Topographic conditions in this area has necessitated an unorthodox location of this well in Section 6, T. 25 N., R. 3W. instead of the customary location, 790 N.L. and 1850 W.L.

Because of these conditions the location has been made, 960 N.L. and 2480 W.L. in Section 6, T. 25 N., 3 W.

It is approximately thirty feet from the edge of the escarpment that has paractically no slope and is nearby perpendicular.

To obtain access to the orthodox location would require constncting a very costly road down this escarpment to the valley floor estimated to be not less than 300 feet lower

Yours very truly,

*Oscar Abraham*

of this propore location
