NS 60-365 Junt ാ Paso Matural Gas Company El Paso, Texas 2 November 12, 1965

ADDRESS REPLY TO: Post office box 990 Farmington, New Mexico

Mr. A. L. Porter, Secretary and Director New Mexico Oil Conservation Commission Box 2088 Santa Fe, New Mexico - 87501

Dear Sir:

This is a request for administrative approval for an unorthodox gas well location in the Aztec Pictured Cliffs Pool.

It is intended to locate the well, El Paso Natural Gas Co. Green Com No. 1, 1935' from the north line and 825' from the west line of Section 36, Township 29 North, Range 9 West, N.M.P.M., San Juan County, New Mexico. The NW/4 of Section 36 is dedicated to this well.

As shown on the plat, the NW/4 consists of Largo Wash. The only feasible land for a well in the NW/4 is that which makes the location unorthodox. It is, therefore, planned to make the location unorthodox in order that the extremely high cost of maintaining an orthodox location be avoided.

El Paso Natural Gas Co. has the verbal consent to said location from the offset operator.

I am enclosing two copies of the certified well location plat, and two copies of the notice of intention to drill.

Yours very truly,

E. S. Oberly, Area Petroleum Engineer

ESO:dgb cc: Sam Smith Emery Arnold P. T. McGrath File

El Paso Natural Gas Company

El Pàso, Texas November 12, 1965

ADDRESS REPLY TO

Mr. A. L. Forter, Secretary and Director New Mexico Oil Conservation Commission Box 2088 Santa Fe, New Mexico - 87501

Dear Sir:

This is a request for administrative approval for an unorthodox gas well location in the Aztec Pictured Cliffs Pool.

It is intended to locate the well, El Faso Natural Gas Co. Green Com No. 1, 1935' from the north line and 825' from the west line of Section 36, Township 29 Morth, Pange 9 West, N.M.P.M., San Juan County, New Mexico. The NW/4 of Section 36 is dedicated to this well.

As shown on the plat, the NM/4 consists of Largo Mash. The only feasible land for a well in the NM/4 is that which makes the location unorthodox. It is, therefore, planned to make the location unorthodox in order that the extremely high cost of maintaining an orthodox location be avoided.

El Paso Natural Gas Co. has the verbal consent to said location from the offset operator.

I am enclosing two copies of the certified well location plat, and two copies of the notice of intention to drill.

СОРҮ

Yours very truly,

OR G NAL SIGNED E.S. OBERLY

E. S. Oberly, Area Fetroleum Engineer

Mr. E. C. Arnold New Mexico Oil Conservation Commission 1000 Rio Brazos Road Aztec, New Mexico

Dear Sir:

This is to advise that Pan American Petroleum Corporation, as operator of the State Gas Com "V" No. 1 located in the SW/4 of Section 36, T-29-N, R-9-W, has no objection to the drilling of El Paso Natural Gas Company's Green No. 1 as an Aztec Pictured Cliffs Field well at an unorthodox location in the NW/4 of the same Section 36, with said location being 1955 feet from the North line and 825 feet from the West line, as we understand it is necessary to drill this well at an unorthodox location due to the proximity of the Largo Wash.

Yours very truly,

PAN AMERICAN PETROLEUM CORPORATION

L. O. Speer, Jr

Area Superintendent
