Re: Location Exception
David Fasken Skelly-Federal No. 1
Sec. 9, T-21-S, R-24-E, NMPM
North Indian Hills Morrow Gas Pool
Eddy County, New Mexico

Dear Sir:

On behalf of our client David Fasken, we hereby request your approval of an unorthodox location pursuant to Rule 5, of the Rules & Regulations adopted for the North Indian Hills Morrow Gas Pool in Order No. R-3081. Mr. Fasken proposes to drill his Skelly-Federal No. 1 at a location 840' from the South line and 935' from the West line of Section 9, T-21-S, R-24-E, NMPM, Eddy County, New Mexico.

This section is located on a topographic feature known as the Seven Rivers Hills and is very rough terrain (see U.S.G.S. Topographic Map, Bandana Point Quadrangle). The subject location is the nearest suitable drill site to a regular location that can be found.

By a copy of this letter, we are advising all offsetting operators of this application and requesting a waiver from them regarding the location of this well.

Your approval of this application will be greatly appreciated.

Yours very truly,
HENRY ENGINEERING

James B. Henry
