Section 9, T-21-S, R-24-E
Indian Basin (Morrow) Field
Eddy County, New Mexico
(30-015-20075)

Dear Sir:

Barbara Fasken respectfully requests your approval of this non-standard recompletion location. This well was originally drilled as a non-standard Morrow test in accordance with Order NSL-400 dated July 5, 1967.

The well was plugged back to the Strawn zone at 9082-88' on September 30, 1992. A Waiver of Objection from the operator of the only offset producing well (other than Fasken operated wells) is enclosed. Please call me at 915-687-1777 if you have any questions.

Yours very truly,

FASKEN OIL AND RANCH INTERESTS

Jimmy Davis, Jr.

Re: Request to Commingle Production
Barbara Fasken
Skelly Federal No. 1
Sec. 9, T-21-S, R-24-E
Eddy Undesignated (Strawn) Field
Eddy County, New Mexico

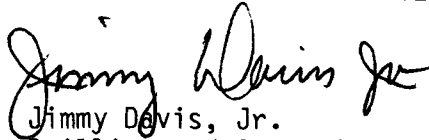

Gentlemen:

The subject well was recompleted from the Morrow zone to the Strawn zone on September 30, 1992. Barbara Fasken respectfully requests that previous authority granted to commingle gas and condensate production in commingling order no. R-3395 be amended to include the Strawn production from the subject well.

If you have questions, please call me at 915-687-1777.

Yours very truly,

FASKEN OIL AND RANCH INTERESTS

Gentlemen:

This is to advise that Durham, Inc. has been notified that Barbara Fasken has recompleted her Skelly Federal No. 1 into the Strawn formation. We have no objection to the recompletion of this well at the above mentioned non-standard location.

Yours very truly,

Durham, Inc.
