Re: Wynn & Brooks
Three Unorthodox Mesaverde-Dakota
Locations, All in T27n, R8W
San Juan County, New Mexico

Gentlemen:

It is respectfully requested that the Commission grant to Wynn & Brooks, Operators and Owners of the locations listed below, three unorthodox location permits to drill at the respective distances in each case to a depth sufficient to complete wells in the Mesaverde and Dakota formations. These three locations are:

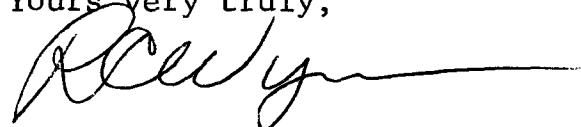

- 1) Federal "A" No. 1, Sec. 35, 2150 FWL, 1360 FEL
- 2) Federal "E" No. 2, Sec. 23, 1620 FNL, 1380 FEL
- 3) Federal "E" No. 3, Sec. 13, 590 FSL, 1590 FWL

Administrative approval of these three unorthodox locations is requested due to the unusual topographic conditions existing as indicated on the respective survey plats attached.

Also enclosed as part of subject application are plats showing offset operators who have been notified of this request by Certified Mail and plats showing offsetting wells to subject locations.

Thank you for your assistance.

Yours very truly,

R. C. Wynn

Re: Wynn & Brooks
Mesaverde-Dakota Dual Unorthodox
Locations, all in T27N, R8W
San Juan County, New Mexico

Gentlemen:

Your respective companies own offset mineral interests to three
Wynn & Brooks proposed unorthodox locations in captioned township
as listed below:

- 1) Federal "A" No. 1, Sec. 35, 2150 FWL, 1360 FEL
- 2) Federal "E" No. 2, Sec. 23, 1620 FNL, 1380 FEL
- 3) Federal "E" No. 3, Sec. 13, 590 FSL, 1590 FWL

It has been necessary to vary our footage requirements slightly
due to the particular topographic conditions existing at the above
mentioned locations in Largo Canyon.

Will you please, if you have no objection, notify the Secretary-
Director, New Mexico Oil Conservation Commission, Santa Fe, New
Mexico 87501, of your non-objection to our unorthodox location
applications which have been filed on this date.

Thank you.

Re: Three unorthodox locations for Wynn & Brooks

Dear George:

The topography in the area of each of the three locations is extremely rough. The locations have been placed as close as possible to the foot of the cliffs.

The cost of building a standard location for any of the locations would be excessive.

Gentlemen:

Wynn & Brooks has proposed unorthodox locations because of
topographic reasons as follows:

1. Federal "A" No. 1, Section 35, 2150' FWL, 1360' FEL.
2. Federal "E" No. 2, Section 23, 1620' FNL, 1380' FEL.
3. Federal "E" No. 3, Section 13, 590' FSL, 1590' FWL.

We have no objection to their proposed locations.

Re: Wynn & Brooks
Mesaverde-Dakota Dual Unorthodox
Locations, all in T27N, R8W
San Juan County, New Mexico

Gentlemen:

We are in receipt of your letter of October 13, 1969, wherein you propose to drill three unorthodox locations as captioned above.

We have no objection to your drilling the Federal "A" No. 1 in Sec. 35, and the Federal "E" No. 2 in Sec. 23. We do, however, object to the location of the Federal "E" No. 3, located 590 from the south line and 1590 from the west line of Sec. 13. This location directly offsets our Marron No. 3 well located in the NW NW of Sec. 24. We have tentatively scheduled a Mesaverde test on this location for some time next year. We feel a Mesaverde-Dakota well located only 590 feet from our lease boundary is much too close.

We would have no objection to an unorthodox location in the SW quarter of Sec. 13, provided said location remain at least 1000 feet from our lease boundary.

Yours very truly,
WESTERN OIL & MINERALS CORP.
