Santa Fe, New Mexico 87501

Attention Mr. A. L. Porter, Jr.

Dear Sir:

Shell Oil Company respectfully requests administrative approval for an unorthodox well location for Turner No. 16 in an undesignated gas pool, according to Rule 104 F. The well is located on Shell's Turner Lease (320-acre tract), consisting of the S/2 Sec. 22, T-21-S, R-37-E.

The well was originally completed in the Brunson Field, at an orthodox location for that field. The well was recompleted in the San Andres, as a water source well. Upon testing the San Andres, it produced 2.1 MMCFGPD + 6000 BWP. Attempts to shut the water off have reduced the water production to 1648 BWP and the gas to 1.5 MMCFPD.

Enclosed is a copy of the letter of notification sent (via Certified Mail) to the offset operators (J. R. Cone, Gulf Oil Corporation - U. S., and Continental Oil Company) of the unorthodox location, requesting their waiver.

Yours very truly,

*H. J. Conrad*  
for: Jack L. Mahaffey  
Production Manager  
Mid-Continent Division
