RE: Request for Unorthodox Location
Section 20, T-21-S, R-26-E
Eddy County, New Mexico
Catclaw Draw Morrow Gas Field

Gentlemen:

Inexco Oil Company hereby requests permission to drill a 11,250' Morrow test at the unorthodox location of 1200 feet from the north line and 1200 feet from the west line of Section 20, Township 21 South, Range 26 East, Eddy County, New Mexico. This application is requested because of the rough surface terrain and outcropping limestone which is present at the standard location of 1650 feet from the north and west lines.

A topographic high or north to south trending ridge dips toward the west thus creating an excessive amount of cut and fill at the standard location. Most of this cut will have to be done by blasting. Movement of the location to 1200 feet from the north and west lines will put the location on a near level plain thus simplifying the dirt work needed to build this drilling location.

I have attached waivers from offset operators along with the necessary plats and maps.

On June 21, Mr. W. A. Gressett met and reviewed with us this location.

Yours very truly,
INEXCO OIL COMPANY

Re: Inexco Oil Company ARCO Federal Com #1
SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 20, T-21-S, R-26-E
Eddy County, New Mexico

Dear Sir:

The purpose of this letter is to advise that we have no objection to a request by Inexco Oil Company to drill the above captioned test well 1200' FNL & FWL, due to topographic reasons. As you know, this test well is within the Catclaw Draw Morrow Field and therefore would normally be required to drill the location no less than 1650' FNL & FWL.

Very truly yours,

HANAGAN PETROLEUM CORPORATION

Robert G. Hanagan

Re : Waiver of Unorthodox Location
ARCO Federal Com. No. 1
W/2 of Section 20, T-21-S, R-26-E
Catclaw Draw Morrow Gas Field
Eddy County, New Mexico

Gentlemen :

We have been advised by Inexco Oil Company that the location required by the New Mexico Oil Conservation Commission for drilling the captioned well is inaccessible due to surface relief. Inexco has requested that the new location be 1200 feet from the north line and 1200 feet from the west line of Section 20.

Inexco has requested that we consent to moving the location as above.

This is to advise that Atlantic Richfield Company has no objection to the drilling of this well at Inexco Oil Company's new location.

Yours very truly,

ATLANTIC RICHFIELD COMPANY

Time of Departure 4:00 P. M. Time of Return 7:30 P. M.

Miles Travelled 64

In the space below please indicate purpose of trip and duties performed, listing wells or leases visited.

Field Inspection:

Met Mr. George Zimmerman and Mr. Bob Knight with Inexco Oil Company to check the topography in the NW/4 of Section 20-21S-26E. This location is adjacent to the Catclaw Draw Morrow Pool which is on 640 acres spacing. A standard location falls on the side of a hill that would require quite a bit of cut (probably blasting) the east side and fill on the west. A location at approximately 1200' FNL & FWL would put them on pretty flat ground.
