Gentlemen:

I have examined the application dated 4-16-74  
for the Covina Oil Corp. John State #1-J-16-17-26  
Operator Lease and Well No. S-T-R

and my recommendations are as follows:

I appreciated the opportunity to make this inspection in order  
to see what a permanently irrigated cotton field looked like.  
The NSL @ 2180' F S+E would put them on the edge of  
the field thereby causing much less damage to the cotton field.  
I therefore recommend approval.

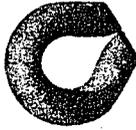

Yours very truly,

W.A. Gressett

RE: Coquina Oil Corporation  
John State #1, Unorthodox Location  
2180' FSL & 2180' FEL  
Section 16, T17S, R26E  
Eddy County, New Mexico

Gentlemen:

Coquina Oil Corporation respectfully requests administrative approval to the above unorthodox location. This request is necessitated due to the fact that a standard location will be in a ten acre permanently irrigated cotton field. The landowner is quite adamant about damages in this field, which would undoubtedly result in court action. By moving to the unorthodox location, damages will be minimal and court action can be averted.

Attached is a waiver which has been executed by Yates Petroleum Corporation, the only offset operator to this unorthodox location; Form C-101; and Form C-102.

Your earliest decision will be appreciated.

Yours very truly,

COQUINA OIL CORPORATION
