APPLICATION TO FORM NON-STANDARD
GAS PRORATION UNIT CONSISTING OF
THE SOUTH HALF OF SECTION 20,
TOWNSHIP 23 SOUTH, RANGE 37 EAST,
LEA COUNTY, NEW MEXICO.

Dear Mr. Porter:

On February 20, 1957 by Administrative Order NSP-351 was authorized a non-standard gas proration unit in the Jalmat Field consisting of the SW/4 of Section 20.

Such 160 acres was ascribed to our Steeler #1 well located 1980' from the south line and 660' from the west line of Section 20.

Resler and Sheldon now has acquired by lease and operating agreement the SE/4 of Section 20 and the two quarter sections have been pooled. It is now our desire, and we herewith make formal application to form a non-standard gas proration unit consisting of the entire S/2 of Section 20, and ascribing this unit to our Steeler #1 well as hereinabove stated, located 1980/S 660/W of Section 20. We refer to Rule 5, Section B of Order No. R-520 issued by the Commission the 12th of August, 1954.

The non-standard unit which we are proposing conforms to specifications set out in Rule 5, Section B as to items 1, 2, 3, and 4.

We are, on this day, furnishing all offset operators owning any interest within 1500 feet of the Steeler #1 well, by registered mail, a notice that we are applying for a non-standard gas proration unit comprising the S/2 of Section 20. Copies of the letters furnished to Skelly Oil Company and Western Natural Gas Company are herewith attached. *notice*

We shall appreciate your handling this application in conformance with the applicable rules.

Yours very truly,

RESLER & SHELDON

Vilas P. Sheldon

Hotbs, New Mexico

Gentlemen:

O
Resler & Sheldon now operates a gas well known as the Steeler #1 located 1980/S 660/W of Section 20, Township 23 South, Range 37 East, Lea County, New Mexico, to which is allocated the SW/4 of Section 20. This well is in the Jalmat gas pool and the non-standard gas proration unit was approved by the Oil Conservation Commission Administrative Order NSP-351.

P
Y
Resler & Sheldon is, on this day, making application to the Oil Conservation Commission to enlarge the non-standard gas unit by adding the SE/4 of Section 20, thus assigning 320 acres to the Steeler #1 well. We believe that conditions are such as to qualify under Order R-520, Rule 5, Section B and have asked the Secretary of the Commission to grant administrative approval as provided in Rule A, Section B, Subsection 6.

Yours very truly,

RESLER & SHELDON
