Re: Application for non-standard
location, Northeast Blanco
Unit Well No. 23A

Dear Mr. Stamets:

The offset spacing units to subject application are all within the bounds of the Northeast Blanco Unit. The proration unit dedicated to Well No. 23A was approved by case No. 1007; order No. 751.

Due to the extreme topographical conditions, we believe we have surveyed this well site in the only logical location.

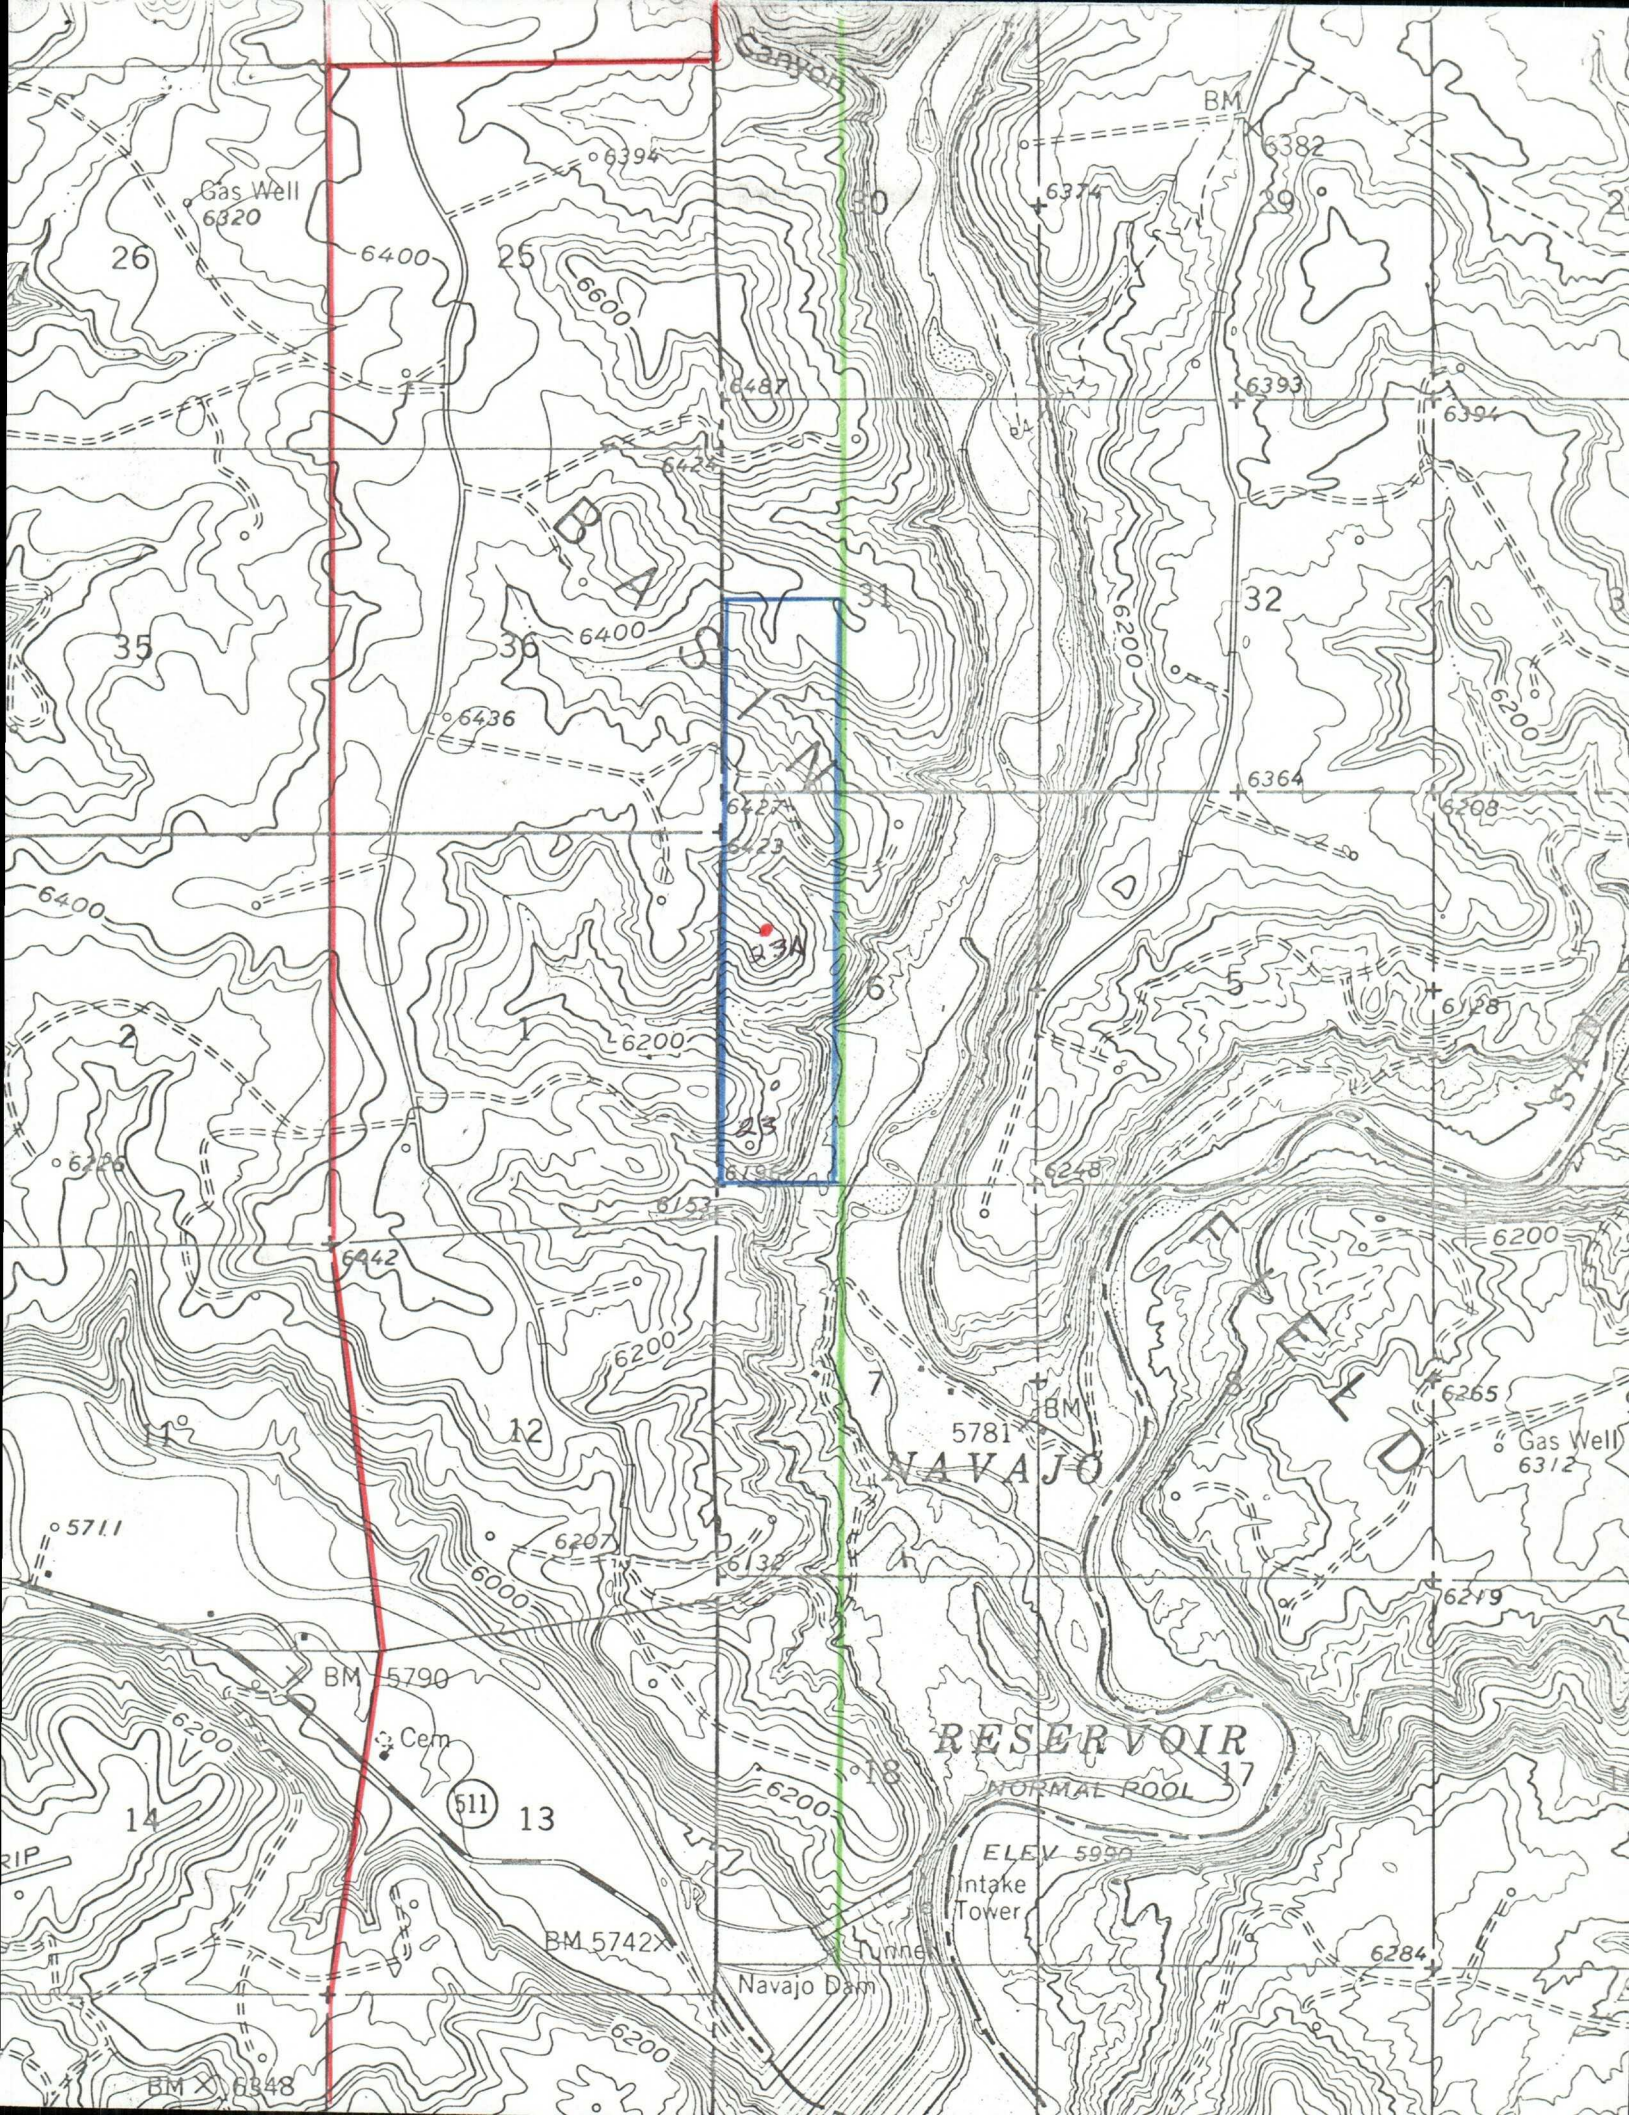

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.

Re: Application for non-standard
location, Northeast Blanco
Unit Well No. 23A

Dear Mr. Loos:

The subject application does not include a plat showing the ownership of all proration and spacing units offsetting the proration unit wherein the non-standard location is sought. Upon receipt of this plat, which is required by Rule 104 F of the Commission Rules and Regulations, and a demonstration that any such operators have been notified of the application, we may process the same.

Very truly yours,

R. L. STAMETS
Technical Support Chief
