Mr. Joe Ramey New Mexico Oil Conservation Commission Post Office Box 2088 Santa Fe, New Mexico 87501

Dear Mr. Ramey:

This is a request for administrative approval for an unorthodox gas well location in the Blanco Mesa Verde pool.

It is intended to locate the <u>El Paso Natural Gas Company San Juan</u> 28-6 Unit #55A at 1180' from the South line and 2220' from the East line of Section 9, T-28-N, R-6-W, Rio Arriba County, New Mexico.

A canyon with steeply sloping sides covers the southeast corner of this section, making it impossible to build an orthodox gas well location.

All operators of proration units offsetting the proposed unorthodox location have been notified of this application by certified mail.

A plat showing the proposed well location and the terrain of Section 9, along with an ownership plat, are attached.

Yours truly,

on Walker

Re: Unorthodox Gas Well Location

Gentlemen:

El Paso Natural Gas Company has requested administrative approval for an unorthodox gas well location in the Blanco Mesa Verde pool.

It is intended to locate the El Paso Natural Gas Company San Juan 28-6 Unit #55A at 1130' from the South line and 2220' from the East line of Section 9, T-28-N, R-6-W, Rio Arriba County, New Mexico.

A canyon with steeply sloping sides covers the southeast corner of this section making it impossible to build an orthodox gas well location.

In compliance with the New Mexico Oil Conservation Commission rules, we are notifying you, as operator of an offsetting proration unit, of our application for administrative approval for the aforementioned unorthodox gas well location. Enclosed are three copies of this letter. If there is no objection to this location, please sign and return one copy to the New Mexico Oil Conservation Commission, Post Office Box 2088, Santa Fe, New Mexico 87501; one copy to El Paso Natural Gas Company; and keep one copy for your files.

A plat showing the proposed well location and offsetting Mesa Verde lease ownership is attached.

Yours truly,

D. C. Walker Project Drilling Engineer
