Describe Cause of Problem and Remedial Action Taken.\*

Flow line leak occurred, Backhoe was immediately moved to site and initial excavation around pipeline began

Describe Area Affected and Cleanup Action Taken.\*

The majority of the fluids remained on location. Preliminary removal of impacted material around flow line was removed. Location will be bermed to contain and prevent any additional fluids migrating off of location once ground thaws.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
