*Re: Application for Administrative Approval of an  
Unorthodox Gas Well Location for the W. A.  
Ramsey (NCT-A) Well No. 52 to be drilled 910'  
FSL & 990' FEL (Unit P) of Section 35,  
Township 21 South, Range 36 East, NMPM,  
Eumont Gas Pool, Lea County, New Mexico.*

*Dear Mr. Saenz:*

*On the attached land plat, please indicate the closest location to your proposed drill site that is considered to be "standard" for the subject GPU. Further, please explain why the proposed W. A. Ramsey (NCT-A) Well No. 52 can not be drilled at a "standard location" within the subject GPU. Provide supporting data.*

*Thank you..*

*Sincerely,*

Administrative Application For  
Non-Standard Gas Well Location  
And Simultaneous Dedication  
Eumont Yates 7Rvrs Qn (Pro Gas) Pool  
W. A. Ramsay (NCT-A) # 52  
910' FSL and 990' FEL  
Section 35, T-21-S, R-36-E  
Lea County, New Mexico

Dear Mr. Stogner:

In response to your questions in your letter dated on January 8, 1998, the closest standard location (1650' FSL & 1650' FEL) is currently congested with major battery flow lines and injection lines associated with the Arrowhead Grayburn Waterflood Unit (AGU). Additionally, FDS primary power lines

Dear Mr. Stogner:

In response to your questions in your letter dated on January 8, 1998, the closest standard location (1650' FSL & 1650' FEL) is currently congested with major battery flow lines and injection lines associated with the Arrowhead Grayburg Waterflood Unit (AGU). Additionally, EDS primary power lines run just west and south of our proposed location of 910' FSL & 990' FEL.

Also, as a result of Eumont gas well # 3 (Unit letter O) being plugged and abandoned in 1995, we feel there are remaining recoverable reserves underlying the southeast corner of the W. A. Ramsay Lease. Our proposed location will allow for optimum recovery of these otherwise unrecoverable reserves and thus serve to protect correlative rights and prevent waste.

Therefore, your approval of the subject administrative NSL application dated December 4, 1997 is respectfully requested.

Attached is the Form C-102 and a topographic map showing the location of proposed well. On the attached C-102, red is for the nearest "standard location", and yellow is for the proration unit boundary.

If you have any questions or require any further information concerning this application, please contact me at (915) 687-7347.

Yours very truly,

J. H. Saenz  
Petroleum Engineer
