NSL-1007  
Rule 104.F.  
1-16-79

Mr. Joe D. Ramey, Director  
New Mexico Oil Conservation Division  
P. O. Box 2088  
Santa Fe, NM 87501

Dear Mr. Ramey:

Amoco Production Company respectfully requests administrative approval for an unorthodox location for our State "C" Tract 11 Well No. 7, located 510 feet FSL and 1980 feet FEL, Unit W, Section 2, T-21-S, R-36-E, Lea County, New Mexico, Lease No. F-218. This request is based upon topographical conditions.

The original drillsite was located 660 feet FSL and 1980 feet FEL, which placed the well on the exact location of Amoco's State "C" Tract 11 Well No. 2. Because of this, Amoco proposes the new location of 510 feet FSL and 1980 feet FEL.

In support of our request, we have enclosed the following:

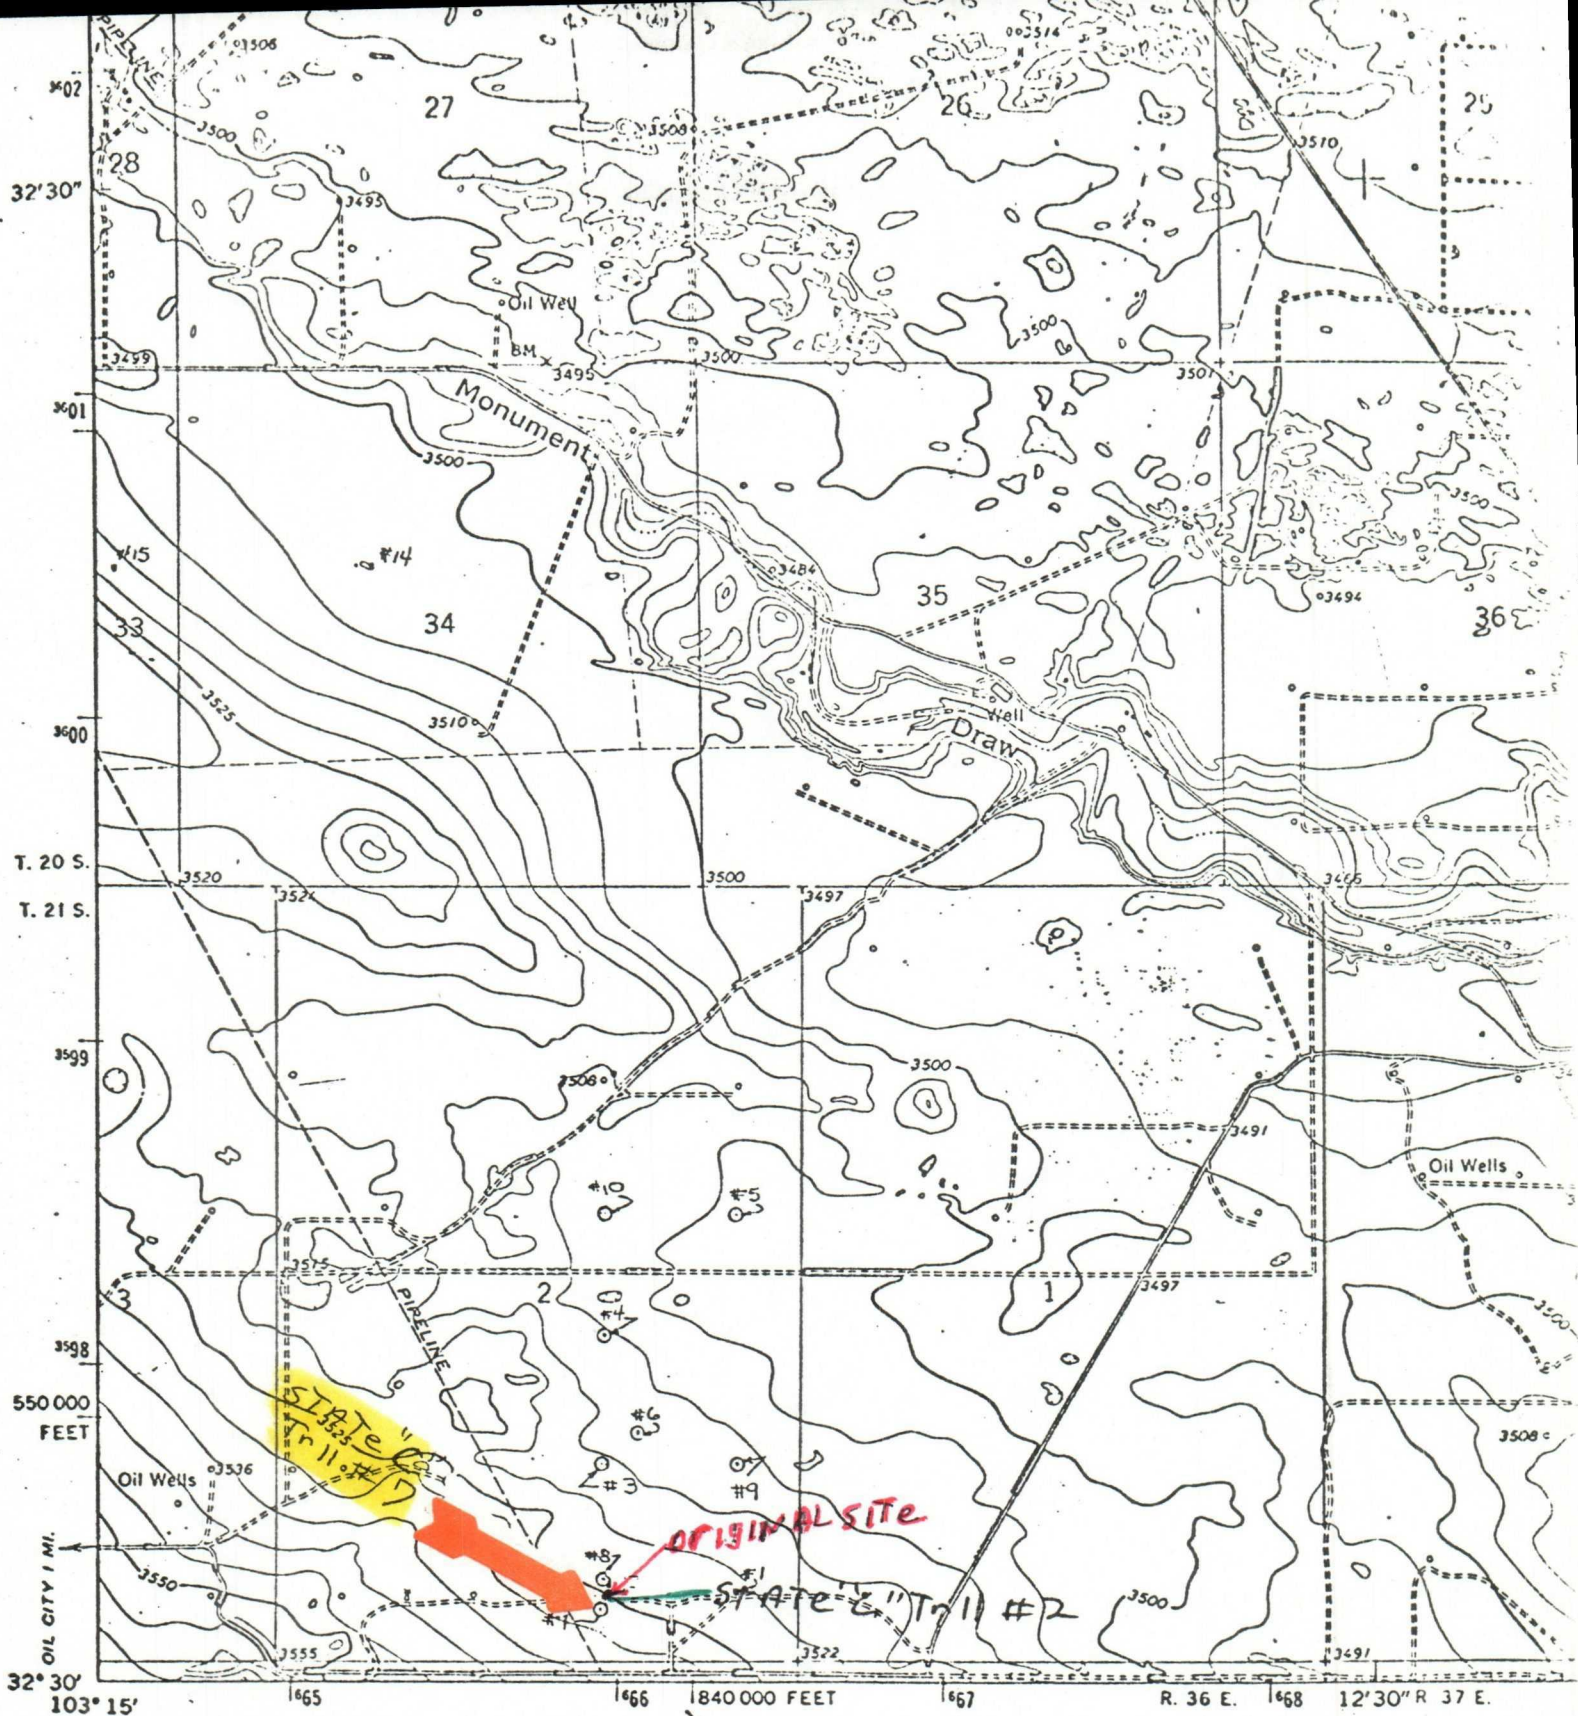

- Topographical map with well location, showing the existing topographical conditions.
- Plat showing well location and all offset operators.
- A list of names and addresses of all offset operators.
- A copy of a letter from Amoco to all offset operators.
- Proof that the letter was sent by certified mail to all offset operators.

It is respectfully requested that the Division give administrative approval of this unorthodox location due to topographical conditions.

Yours very truly,

~~OFFSET OPERATORS TO AMOCO PRODUCTION COMPANY'S~~  
STATE "C" TRACT 11 WELL NO. 7

Gentlemen:

Amoco Production Company respectfully requests your approval of an unorthodox location for our State "C" Tract 11 Well No. 7, located 510 feet FSL and 1980 feet FEL, Unit W, Section 2, T-21-S, R-36-E, Lea County, New Mexico.

The original orthodox location was 660 feet FSL and 1980 feet FEL, which placed the well at the same location as our existing State "C" Tract 11 Well No. 2, as shown on the attached topographical map. Well No. 7 was moved 150 feet to the south. We are asking for New Mexico Oil Conservation Division approval based on this topographical condition.

Please indicate your approval of our application by signing two of the enclosed copies of this letter and returning one to the New Mexico Oil Conservation Division and the other to us. Envelopes which have been addressed and stamped are attached for your convenience.

Yours very truly,

The original orthodox location was 660 feet FSL and 1980 feet FEL, which placed the well at the same location as our existing State "C" Tract 11 Well No. 2, as shown on the attached topographical map. Well No. 7 was moved 150 feet to the south. We are asking for New Mexico Oil Conservation Division approval based on this topographical condition.

Please indicate your approval of our application by signing two of the enclosed copies of this letter and returning one to the New Mexico Oil Conservation Division and the other to us. Envelopes which have been addressed and stamped are attached for your convenience.

Yours very truly,

OFFSET OPERATORS TO AMOCO PRODUCTION COMPANY'S  
STATE "C" TRACT 11 WELL NO. 7

Gentlemen:

Amoco Production Company respectfully requests your approval of an unorthodox location for our State "C" Tract 11 Well No. 7, located 510 feet FSL and 1980 feet FEL, Unit W, Section 2, T-21-S, R-36-E, Lea County, New Mexico.

The original orthodox location was 660 feet FSL and 1980 feet FEL, which placed the well at the same location as our existing State "C" Tract 11 Well No. 2, as shown on the attached topographical map. Well No. 7 was moved 150 feet to the south. We are asking for New Mexico Oil Conservation Division approval based on this topographical condition.

Please indicate your approval of our application by signing two of the enclosed copies of this letter and returning one to the New Mexico Oil Conservation Division and the other to us. Envelopes which have been addressed and stamped are attached for your convenience.

Yours very truly,
