Subject: Request for Exception to Standard Location
Hixon Federal Well No. 1-R
NE/4 of Section 4, T25N, R12W
San Juan County, New Mexico

Dear Mr. Ramey:

Hixon Development Company requests administrative approval of an exception to standard WAW-Fruitland-Pictured Cliffs location for the subject gas well on the basis of topographic condition. Per the attached plat, we desire to drill the Hixon Federal No. 1-R at 2040' FNL, 2040' FEL, Section 4, T25N, R12W in order to be outside the NAPI irrigated land. A standard 1850' FNL, 1850' FEL location would put the proposed well in the path of a proposed/existing irrigation sprinkling system. *Pos /*

Attached is a copy of a Bureau of Indian Affairs letter from Mr. Albert L. Keller supporting this request. Also attached is a Bureau of Reclamation plat showing the NAPI project boundary along with the proposed well location.

We have also notified offset lease holders of the proposed non-standard well location by certified mail with a copy of this letter.

Please give this request your earliest consideration.

Very truly yours,

Hixon Development Company

WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section.

Operator Hixon Development Company		Lease Hixon Federal		Well No. #1R
Unit Letter G	Section 4	Township 25 North	Range 12 West	County San Juan
Actual Footage Location of Well: 2040 feet from the North line and 2040 feet from the East line				
Ground Level Elev. 6158	Producing Formation Pictured Cliffs	Pool WAW-Fruitland-PC	Dedicated Acreage: 160 Acres	

- Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Mr. A.L. Kuchera, Petroleum Engineer
Hixon Development Company
P. O. Box 2810
Farmington, New Mexico 87401

Dear Mr. Kuchera:

You have contacted our office regarding the location of the Hixon Federal #1R well in Section 4, T.25N., R.12W., which is within the Navajo Indian Irrigation Project.

The proposed location of this well was 1850' FNL, 1850' FEL. This location falls within a field to be irrigated with a mechanical move sprinkler irrigation system and would cause serious problems with the operation of this system.

We request that, if possible, you change the location of this proposed well to 2040' FNL, 2040' FEL and that any necessary production equipment be located south of the well. This will put the well and equipment south of the area to be irrigated and be of mutual benefit.

Your cooperation in this is appreciated.

Sincerely,

Albert L. Keller
Project Manager
