Re: Application for non-standard  
location, Northeast Blanco  
Unit No. 45A

Dear Mr. Ramey:

As operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 45A, an infill well, located 2550' F/SL - 875' F/EL, I-5-30N-7W, San Juan County, New Mexico.

Due to extreme topographical conditions and proximity to the Navajo Lake, we believe we have surveyed this well site in the most logical location.

All offset properties are within the bounds of the Northeast Blanco Unit and will not present a drainage problem to any offset lease owner.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.

  
DeLasso Loos, District Manager
