13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Mack Energy Corporation as operator respectfully requests administrative approval for a permit to surface commingle and off lease measurement of production. It is requested that surface commingling of Vacuum; Grayburg-San Andres and Vacuum; Bone Spring, West pools be approved for the following lease:

Raven State Sec. 9, T18S, R34E, B-10784

Raven State wells #1, 2 and 3 are GB/SA wells. The Raven State #4 is currently a Bone Spring producer. We anticipate a workover to DHC the Bone Spring and GB/SA soon. A central tank battery for the #1,2 & 3 wells is located in the SW/4 NE/4, Sec. 9 T18S R34E. The Tank Battery for the #4 is located in the SW/4 NW/4 Sec. 9 T18S R34E. Proper allocation for gas production will be measured with meters at each battery, then sent to DCP's Raven State sales meter at the Crow State TB located in the NW/4 SE/4 Sec. 9 T18S R34E. Mack Energy Corporation has made notification to all parties owning an interest in these leases, including the gas purchaser, of the intent to commingle. The interests in all pools on this lease are common.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOC guidelines ☐ a general permit ☐ or an (attached) alternative OCD-approved plan ☐
