RE: Filing Exception to Rule 104F
Supron Energy Corporation
#23 Newsom
NE SE Sec. 20 T26N R8W
1910' FSL & 1290' FEL
San Juan County, New Mexico

Dear Mr. Ramey:

Ballard Pictured Cliffs Pool

Supron Energy Corporation requests an exception to Rule 104F for the above-captioned well location. Enclosed is a location and elevation plat and a topographic map.

The location was staked at the above coordinates due to extreme topographic difficulties.

Supron Energy Corporation has the operating rights to the Pictured Cliffs formation on the surrounding acreage, so no other leaseholders are involved.

Should you require any additional information in order to approve this application for exception to Rule 104F, please call.

Thank you.

Sincerely,

POWERS ELEVATION

Re: Application for Non-Standard
Location: Supron Energy Corp.
Newsom Well No. 23, Sec. 20,
T-26-N, R-8-W, San Juan County

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location. The plat submitted is on a scale that makes it impossible to determine the necessity for the unorthodox location. A plat or sketch map about the size of that on our Form C-102 would be more appropriate.
