RE: REENTRY OF AMOCO'S QUEEN "B" NO. 1
BY MADDOX ENERGY CORPORATION

Gentlemen:

Maddox Energy Corporation has filed a Form C-101 with the Artesia office to re-enter the Queen "B" No. 1 well drilled by Amoco as a Bone Springs wildcat in 1978. The well is located in Unit D, 760 feet FNL and 990 feet FWL of Section 26, T-23-S, R-28-E, Eddy County, New Mexico. It was drilled on forty (40) acre spacing.

Maddox desires to drill plugs and clean out to approximately 7000 feet and attempt completion in the Bone Springs. After the well was drilled and plugged the Bone Springs discovery well, the Delta Drilling Company, Culebra Bluff No. 3, was completed approximately 3/4 mile NNE. Temporary special rules were adopted in late 1979 which call for eighty (80) acre spacing and, therefore this well is now in an unorthodox location.

On September 15, 1980, we sent waivers for the unorthodox location to all offset operators by Certified Mail. Due to a misunderstanding, we did not simultaneously notify your office of our request.

We respectfully request your approval of our application to re-enter this well and an exception for the unorthodox location.

Attached are two copies of our letters of waiver to the offset operators, two copies of Certified Mail Receipts and two copies of plats showing offset operators.

We will have a rig available for this well in the next week to ten days.

Thank you.

Sincerely yours,

Audra B. Cary

QUEEN "B" NO. 1
EDDY COUNTY, NEW MEXICO

Gentlemen:

Attached is a copy of Delta's signed waiver regarding the unorthodox location of Maddox, Queen "B" No. 1, Eddy County, New Mexico.

We appreciate the assistance both you and Mr. Bill Gressett have given us which has allowed us to use the rig we had scheduled for this workover.

We are presently drilling cement at 3416 feet.

Sincerely yours,

Audra B. Cary

RE: MADDOX ENERGY CORPORATION
QUEEN "B" NO. 1
UNDESIGNATED BONE SPRING POOL
EDDY COUNTY, NEW MEXICO
UNORTHODOX LOCATION

Gentlemen:

Maddox Energy plans to re-enter the Amoco, Queen "B" No. 1 located 760 feet from the North Line and 990 feet from the West Line, Unit D, Section 26, T-23-S, R-28-E. This well was originally drilled on 40 acre spacing prior to development of Bone Spring production in Section 23, approximately three-quarters of a mile northeast.

Since the Queen "B" well is now within a mile of a pool having temporary pool rules which call for wells to be located within 150 feet of center of either one-quarter of one-quarter of section (1/4 1/4 section), it is necessary that we obtain waivers from offset operators.

If you have no objection, please indicate your approval by returning one executed copy to the undersigned at your earliest convenience.

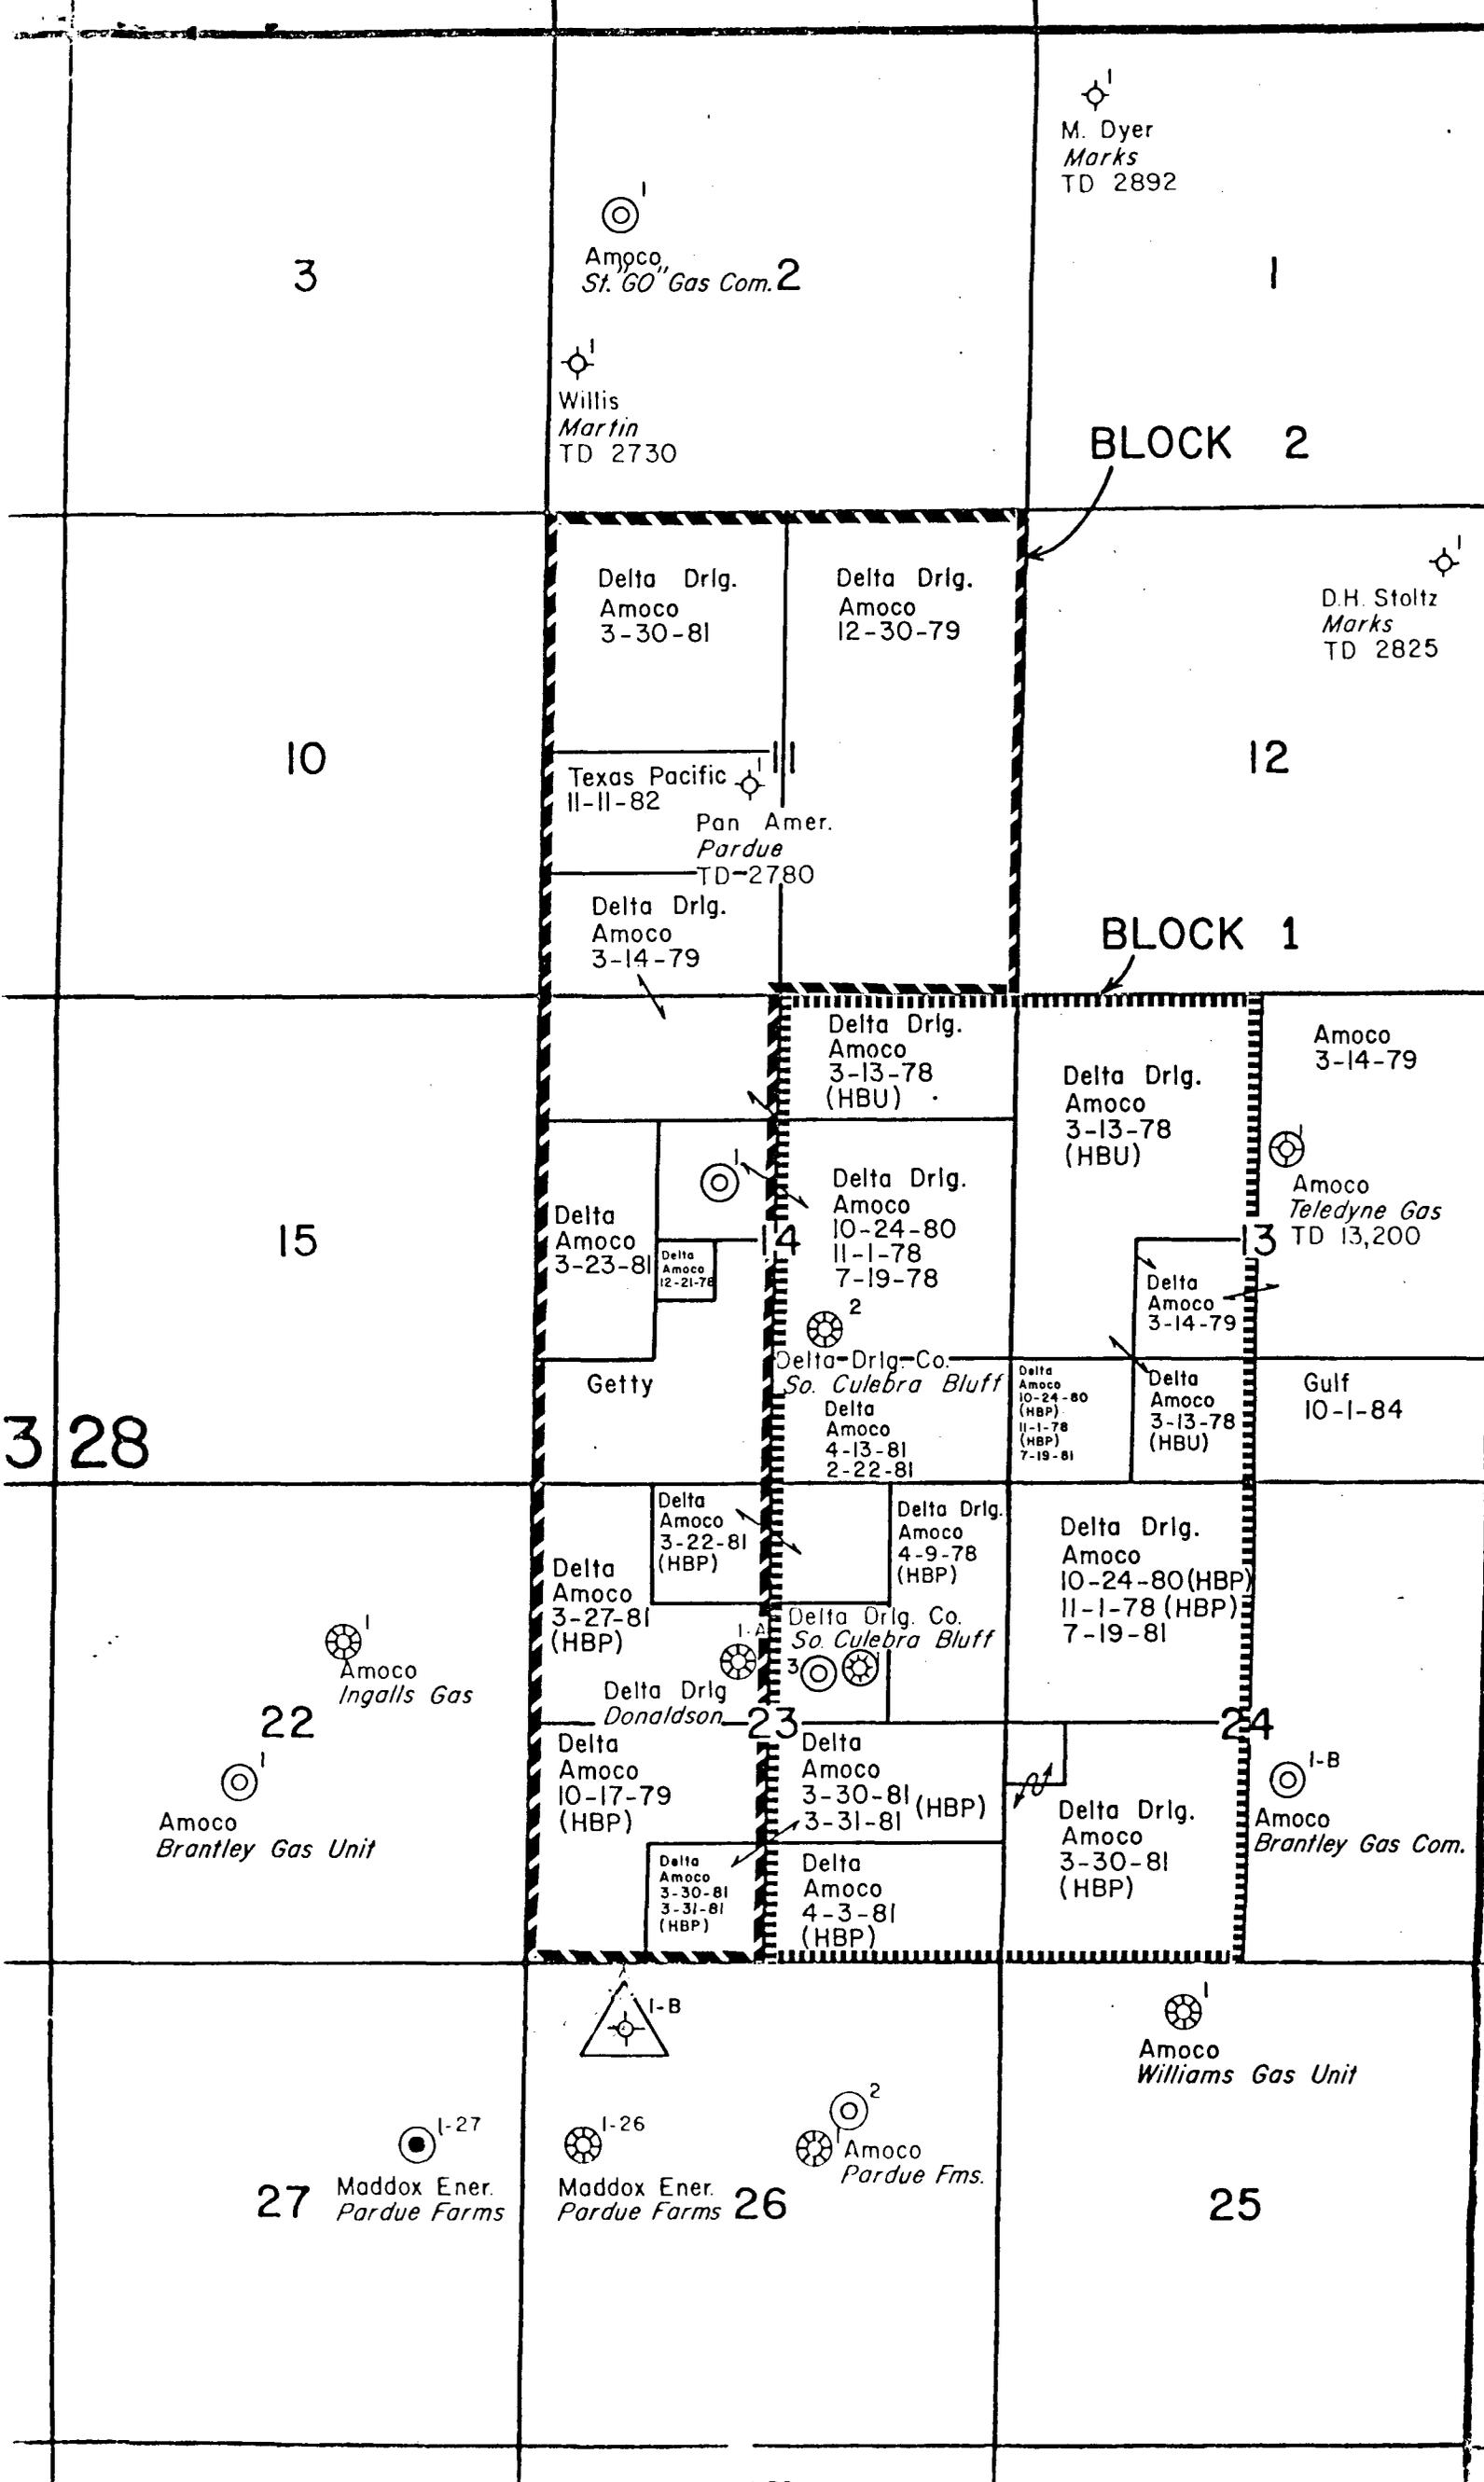

Sincerely yours,

Audra B. Cary
