Sec. 22, T-29-N, R-13-W
San Juan County, New Mexico

We may not process the subject application for non-standard location until the required information or plats checked below (is)(are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location.
- Other: - Tenneco Oil Co. appears to be an offset operator to the South and should therefore be notified.

Very truly yours

Re: Waivers Consent for Unorthodox Location
Federal "BL" Well No. 1

OIL CONSERVATION DIVISION
SANTA FE

ARCO
P. O. Box 1610
Midland, TX 79701

Gentlemen:

Amoco requests your approval, as an offset operator, of the unorthodox location of our Federal "BL" Well No. 1 located 300' FNL X 2600' FEL, Section 17, T-23-S, R-24-E, Eddy County, New Mexico. An application for administrative approval of the unorthodox location has been filed with the NMOCD in Santa Fe.

The well originally was staked as an orthodox location at 660' FNL & 1980' FWL in the same section but would have required extensive cut and fill operations. Also, the Bureau of Land Management has requested the location change to prevent pit fluids from reaching a nearby watercourse in the event of an overflow or leak.

We request that you approve and return a signed copy of this letter to our office and one to the NMOCD in Santa Fe. Self-addressed envelopes are enclosed.

Yours very truly,

S. J. Okerson
