Re: Case No. 7223, Order No. 6667
Walter Lynch Well No. 5
Tubb Gas Pool, Lea County, New Mexico

Dear Sir:

Order No. R-6667 dated April 30, 1981 authorizes Sun Oil to recomplate our Walter Lynch Well No. 5 to produce oil from the Wantz-Granite Wash Pool throughtubing and gas from the Tubb through the casing-tubing annulus and to simultaneously dedicate the SW/4 of Sec. 1 to Well No. 5 and to our Lynch Christmas Com. Well No. 4 in Unit L.

Well No. 5 located in Unit "M" is located only 330' from the West line and 330' from the South line of Sec. 1, T22S, R37E which is an unorthodox location for the Tubb Gas Pool. By copy of this letter we are notifying all offset operators by registered mail of our request for an exception to the Rule in accordance with Rule 3 of the Tubb Gas Pool rules for the recompletion of an existing well. All offset operators were notified on March 31, 1981 regarding our application for a hearing on this matter.

Our offset operators are:
