Gentlemen:

We respectfully request administrative approval for exception to Field Rule #3 of the ^{East} Puerto Chiquito Field, Rio Arriba County, New Mexico.

The Grevey #4-R is staked for drilling ^{Pool} on an existing drill location at 1870' FSL and 335' FWL of Section 26, T26N, R1E, Rio Arriba County, New Mexico. This location is 160' too far west to comply with Rule #3. To comply with the rule, the new location would be on a very steep mountain side and would greatly increase the cost of drilling this well. We propose to drill on the existing pad of the P & A well Grevey #4. The U.S.G.S. has approved this as a drillable location. A topo map of the area is attached along with Form C-102.

There are no offset operators surrounding this non-standard location.

Your early approval of this location will be most appreciated.

The formal name change had been submitted to the U.S.G.S. making this location the Grevey #4-R instead of the Grevey #4-X.

Very truly yours,

A handwritten signature in cursive script that reads "Harold W. Elledge".

Re: Badlands Federal #3

Dear Mr. Quintana:

Further to our recent discussion, we enclose a copy of our resurveyed location plat.

You wanted this for your records in connection with the off pattern spacing unit.

Yours very truly,

CORRIDA OILS INC.
