Re: ~~MCC~~ McCrea Fee No. 1
Section 1-T10S-R25E
330' FNL & 2310' FWL
Chaves County, N.M.

Dear Mr. Ramey:

Enclosed for your further handling is a letter from Husky Oil Company, one of our offset partners, agreeing to the above captioned unorthodox location.

Since we have already provided you with a similar letter of agreement from Yates Petroleum Corporation, our other offset partner, we are hopeful to obtain the approval of the Oil Conservation Division for the unorthodox location. Your attention to this matter at your earliest convenience will be appreciated.

Very truly yours,

Mark McClellan
Geologist

Mark McClellan called today - 11/3. They are moving a rig in approval based on verbal penciled in on the info. Told them we would give written approval upon receipt of ownership map showing Yates & Husky as the only offset operators

Gentlemen:

Southland Royalty Company has filed a request for administrative approval for an unorthodox well location for the Scharb "9" Well No. 1 completed in the Bone Spring Formation.

As an offset operator, Amoco Production Company has no objection to this unorthodox well location as stated above.

Yours very truly,

R. G. Smith

Re: MOC McGrea Fee No. 1
Section 1-T10S-R25E
330' FNL & 2310' FWL
Chaves County, N. M.

Attention: Randy Patterson

Gentlemen:

Pursuant to our telephone conversation this date, this letter is to request that you indicate your agreement to the captioned unorthodox location. Inasmuch as you are the only offset operator to this test, your waiver will expedite our request.

Please indicate your approval by signing in the space provided below and returning three copies of this letter to our office for submission to the Oil Conservation Division.

Very truly yours,

Mark McClellan
Geologist

We have no objection to this location, and will be participating in the drilling of this test.

YATES PETROLEUM CORPORATION

BY:

We are basically opposed to 330' from a side locations, however we are not objecting to this location since you are moving toward yourself. We would rather that the pattern of 330' locations not be established in the area.

Fbo

Dear Mr. Ramey:

Pursuant to our conversation on Thursday, October 8, concerning the captioned unorthodox location, I am enclosing a letter from our offset partner stating that they have no objection to the present staked location. This location was staked 330' FNL instead of 660' FNL due to the topography problem.

We are requesting that you expedite administrative approval for the captioned unorthodox location, as we are holding a drilling rig with this well.

Very truly yours,

Mark McClellan
