Gentlemen:

Amoco Production Company requests administrative approval for an unorthodox location, nonstandard proration unit, and simultaneous dedication for our Empire South Deep Unit No. 22. The well is located 888 FNL x 1980 FWL, Section 31, T-17-S, R-29-E, Eddy County, New Mexico. The unorthodox location is resultant from the well site being 289.89 feet from the quarter-quarter section line. The half-section in question is less than 320 acres (297.49 acres) resulting in the less than 330 feet distance between proposed well site and quarter-quarter section line. A plat is enclosed showing the ownership of leases offsetting the unorthodox location and also all wells completed thereon.

The necessity of the nonstandard proration unit arises, as mentioned above, from the fact that the north half of the section consists of only 297.49 acres. This nonstandard proration unit was approved by Administrative order NSP-983, December 23, 1974, for our Empire South Deep Unit #5.

Approval of simultaneous dedication is required since the subject well shares acreage with our Empire South Deep Unit #5, located 1980' FNL, 2180 FEL, Section 31, T-17-S, R-29-E.

Rec'd

Re: Withdrawal of
Administrative Order NSL-1502

Gentlemen:

By Administrative Order No. NSL-1502 a non-standard gas well location 888 feet from the North line and 1980 feet from the West line of Section 31, Township 17 South, Range 29 East, NMPM, was approved for your Empire Deep Unit Well No. 22.

This application received immediate approval based upon a map interpretation that there was no offset operator. On March 29, 1982, an objection to the location was received from Hondo Oil and Gas Company, who claims to be an offset operator. A review of the application and the map of the area does not clearly establish that Hondo Oil and Gas is an offset operator as contemplated by the regulations.

However, as Amoco has given notice by its letter of April 30, 1982, that it does not plan to drill this well, final determination of the status of Hondo as an offset operator is not now necessary.

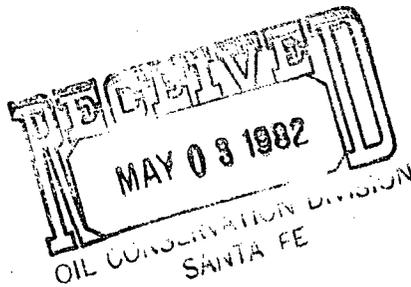

Pending clarification of the offset operator issue and reapplication of Amoco to drill the Empire South Deep Unit Well No. 22, the approval for an unorthodox gas well location granted by Administrative Order No. NSL-is hereby withdrawn.

Sincerely,

A handwritten signature in dark ink, appearing to read "Joe D. Ramey".

Dedication of Acreage
Empire South Deep Unit Well No. 22
Eddy County, New Mexico

Hondo Oil and Gas Company
Box 1610
Midland, TX 79701

Attention: Mr. J. L. Tweed, District Engineer

Gentlemen:

Reference is made to your letter of March 24, 1982 addressed to our Hobbs District Office concerning the above captioned subject. We do not agree with your position a second well on a proration unit is prohibited by Statewide Rules. This is simply not true. Statewide Rules in New Mexico permit more than one well and simultaneous dedication of acreage on a gas proration unit unless field rules specifically provide otherwise.

However, due to changed economic conditions, Amoco does not plan to drill the ESDU Well No. 22. Working Interest Owners have been advised by separate correspondence.

By copy of this letter we are advising the Oil Conservation Division no further action to drill the subject well will be taken.

Yours very truly,

D. M. Basinger

Gentlemen:

RE: Requested Waiver of Consent for Unorthodox Location,
Nonstandard Proration Unit, and
Simultaneous Dedication
Empire South Deep Unit #22
Eddy County, New Mexico

As a direct offset operator to the subject proration unit, we must object to the drilling of a second well in the N/2 Section 31, T-17-S, R-29-E, Eddy County, New Mexico. Statewide Rules specify that there will be one well per proration unit, and this proration unit is assigned to the Empire South Deep Unit No. 5. We believe that the addition of a second well to this proration unit would be a violation of our correlative rights as working interest owner in the South Empire (Morrow) Field.

Very truly yours,

J. L. Tweed
District Engineer

Hondo
P. O. Box 1610
Midland, TX 79701

Gentlemen:

Amoco requests your approval, as an offset operator, for unorthodox location, nonstandard proration unit, and simultaneous dedication for our Empire South Deep Unit #22. The well is located 888 FNL x 1980 FWL, Section 31, T-17-S, R-29-E, Eddy County, New Mexico.

The unorthodox location is resultant from the well site being 289.89 feet from the quarter-quarter section line. The half section in question is less than 320 acres (297.49) resulting in the less than 330 foot distance between proposed well site and quarter-quarter section line.

The necessity of the nonstandard proration unit arises, as mentioned above, from the fact that the north half of the section consists of only 297.49 acres. This nonstandard proration unit was approved by Administrative order NSP-983, December 23, 1974, for our Empire South Deep Unit #5.

The simultaneous dedication is necessary since the subject well shares acreage with our Empire South Deep Unit #5, located 1980' FNL, 2180 FEL, Section 31, T-17-S, R-29-E.
