Hand delivered

Mark E. Fesmire, P.E. Oil Conservation Division 1220 South St. Francis Drive Santa Fe, New Mexico 87505

Dear Mr. Fesmire:

Pursuant to Division Rule 104.F(2), Cimarex Energy Co. of Colorado applies for approval of an unorthodox oil well location for the following well:

Well:

Pipeline B5 Fed. Well No. 4

Location:

2310 feet FSL & 2460 feet FEL

Well Unit:

N½SE¼ §5-19S-34E, Lea County, New Mexico

(80.00 acres)

The well will be drilled to a depth sufficient to test the Bone Spring formation (EK-Bone Spring Pool). Under Order No. R-4981, the pool is spaced on 80 acres, with wells to be located within 150 feet of the center of a quarter-quarter section. A Form C-102 is attached as Exhibit A.

The location is unorthodox for geologic and topographic reasons. The original proposed location was also unorthodox, at 2310 feet FSL and FEL, due to geology. Attached as Exhibit B is an isopach, showing that the most favorable location is in the northwest part of the NW¼SE¼ of Section 5. As a result, applicant desires to remain in that quarter-quarter section.

There are sand dunes in this area, and the Bureau of Land Management requires operators to minimize surface disturbance. There is a sand dune at the original proposed location, requiring the well to be moved further west.

All of Section 5, except the SW¼SW¼, is subject to Federal Lease NM 4314, with common ownership in the Bone Spring formation. See Exhibit C. As a result, there is no adversely affected person, and notice of this application has not been given to anyone.

ry truly yours,

ames Bruce

Attorney for Cimarex Energy Co. of Colorado
