#### Gentlemen:

Attached in duplicate (to each office) are well location plats (C-102) with a sketch of the surrounding conditions and an ownership plat for the above referenced well.

Due to steep topography, a pipeline and an existing well, the referenced location could not be placed where it meets state spacing requirements. This is the only geologic and topographic site acceptable.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to the authority of Rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.

Yours very truly,

TENNECO OIL COMPANY

Ken Russell

Sr. Production Analyst
