Dear Mr. Ramey:

Unorthodox Location Application
Jicarilla Contract 35C No. 1
Dual Basin Dakota/Otero Gallup
Rio Arriba County, New Mexico

Amoco Production Company hereby requests an approval of an unorthodox well in respect to the Otero Gallup formation for the subject well located 1100' FSL x 1070' FWL of Section 2, T24N, R5W, Rio Arriba County, New Mexico.

This well was drilled and completed in the Basin Dakota formation in 1969 and produced until the present time. Declining Dakota production and tests of other Gallup wells have indicated it would be beneficial to move uphole and recomplete in the Gallup and commingle production with that of the Dakota. A commingling application is being prepared.

A copy of this application is being sent by certified mail to the offset lease holders, Union Texas Petroleum (Supron), Conoco, and Energy Reserves with the request they furnish you a waiver of objection and return one copy of the same to me. The attached 9 section plat shows the offset lease holders.

Pursuant to authority of Rule 104-F, we respectfully request your approval of an exemption to the standard well location requirement of the Gallup formation.

Yours very truly,

CLH/de

Re: Application for Non-Standard
Location: Jicarilla Contract 35C
Well No. 1 Section 2, Township 24 North,
Range 5 West, Otero-Gallup Pool, Rio
Arriba County, NM

Dear Sir:

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

A plat must be submitted clearly showing the ownership of the offsetting leases.

A statement must be submitted that offset owners have been notified of the application by certified mail.

A plat must be submitted fully identifying the topography necessitating the non-standard location.

Other: The ownership of the N/2 NE/4 of Section 11 to the South must be identified and such owner must be notified.

Very truly yours

R. L. STAMETS
Technical Support Chief
