State of New Mexico
Energy and Minerals Department
Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87501

Attention: Mr. Joe D. Ramey

Gentlemen:

Amoco Production Company (USA) hereby makes application for administrative approval of an unorthodox gas well location under the provisions stipulated in Statewide Rule 104(F). The following is presented in support thereof:

1. Amoco seeks approval of this unorthodox gas well location for its State "MO" No. 1 which is proposed to be drilled 1320' FNL x 1320' FWL of Section 27, Township-17-South, Range-28-East in Eddy County, New Mexico.
2. The subject well is proposed to test the Morrow Formation at $\pm 10,675'$ in this Wildcat Field, along with other possible producing zones in the Pennsylvanian. Formation
3. Amoco proposes to dedicate the N/2 of Section 27 to the subject well in order to form a 320 acre (horizontal 1/2 section) proration unit.
4. The necessity of the subject location is due to topographical conditions which are presented in the exhibits attached.

October 26, 1982
File: SJO-1419-WF
Page Two

5. In support of this application, it is accompanied by the following exhibits:
 - a. Exhibit No. 1 is a plat depicting the ownership of all leases and wells completed offsetting the subject spacing proration lease.
 - b. Exhibit No. 2 is a certified Form C-102 showing the surveyed well location and proposed spacing.
 - c. Exhibit No. 3 is a list of all the operators of proration or spacing units offsetting the subject lease.
6. Amoco, as Applicant, certifies that as of the date of this application, notification of the same was forwarded by certified mail to each offset operator listed in Exhibit No. 3. Therefore, the Applicant requests that action be taken on this application, if no objection is entered by an offset operator within 20 days of the receipt.

In summary, Amoco Production Company (USA) hereby requests administrative approval for an unorthodox gas well located in the N/2 of Section 27, Township-17-South, Range-28-East of Eddy County, New Mexico.

If there are any questions concerning this matter, please contact Pete McRae (505/393-1781) in our Hobbs office.

Yours very truly,

S. J. O'Kerson Jr.

STATE "MO" NO. 1

1320' FNL, 1320' FWL
T-17-S, R-28-E, Sec. 27
Eddy County, New Mexico

Exhibit #1 Summary

Amoco Production Company's drill site requirements for well 8,000' or deeper is 800' X 600'. The squares on these plats measure approximately 300' X 300'.

- 1(a). The well cannot be drilled in this orthodox location, because of 2 existing wells and 1 battery inside of location, electrical powerline crossing location, and a pipeline also crossing location.
- 1(b). This orthodox location cannot be used due to an existing well and flowline within the drill site. Also there is a pipeline in very close proximity and one end of the location is obstructed by cliffs.
- 1(c). The orthodox site here is also unusable due to an existing well battery within the location and cliffs crossing through the location on all four sides.
- 1(d). The well cannot be drilled in this, the last orthodox location. The location is obstructed by a 3" buried flowline running through the location, cliffs, and the close proximity of an existing well and power line which will be included in the drill site.
