RECEIVED

Gentlemen:

As per your letter received by us on December 10, 1982, enclosed you will find a plat clearly showing the ownership of the offsetting leases, Letters to Offset Operators, and a plat identifying the topography necessitating the non-standard location.

Attention: Mr. Frank Chavez

Dear Sir:

It is respectfully requested that Union Texas Petroleum be granted administrative approval to drill the Pierce "A" No. 4 well (Armenta Gallup formation) on a non-standard location due to agricultural reasons.

The proposed well would be located 1180 feet from the North line and 930 feet from the East line of Section 34, Township 29 North, Range 10 West, N.M.P.M., San Juan County, New Mexico.

The on site inspection reveals that any standard location in the unit would be situated in an agricultural area. We have spotted the well in the only location available in this drilling block.

Attached are copies of letters to the offset operators asking if they have any objections to this proposed non-standard location.

Re: Application for Non-Standard

Location: Pierce "A" well No. 4

A - 34 - T29N - R10W

San Juan County, N.M.

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

☒ A plat must be submitted clearly showing the ownership of the offsetting leases.

☒ A statement must be submitted that offset owners have been notified of the application by certified mail.

☒ A plat must be submitted fully identifying the topography necessitating the non-standard location.

☒ Other: Please identify the Pool(s) or formations(s) for which the location is sought.

Very truly yours,

R. L. STAMETS  
Technical Support Chief
