Re: Application for
Non-Standard Location:
Hospah Sand Unit
Well #102 and #104
McKinley Co., New Mexico

Dear Mr. Stamets,

As we discussed early this week, I submitted the applications referenced above on February 4, 1983. I would like to re-submit these applications for the two wells. Both of these wells are located well within the Hospah Sand Unit. I submit these applications for your approval of a non-standard location.

If you have any questions, please call me at 1-800-531-7661.

Sincerely yours,

Gavino Perez, Jr.
Area Production Manager

Re: Application for
Administrative Approval
of an Unorthodox Location
of the Tesoro Hospah Sand
Unit 104, Unit "C", Sec. 1
McKinley, Co., New Mexico

Dear Sir:

The attached waterflood orders indicate that administrative approval may be obtained for necessary unorthodox locations.

The proposed well #104 is offset by an injection well, HSU #87 and producers #23, #85, and #56. This well #104 is located in an area we believe to be undrained by the existing producing wells.

The acreage surrounding the Unit "C" is unitized which would protect the correlative rights. We believe this well will be in the best interests of conservation.

Also attached are other data and information required by the Commission under Rule 104.

If additional information is necessary, call me at the number below.

Sincerely,

Gavino Perez, Jr.
Area Production Manager

GP/jj

All distances must be from the outer boundaries of the Section.

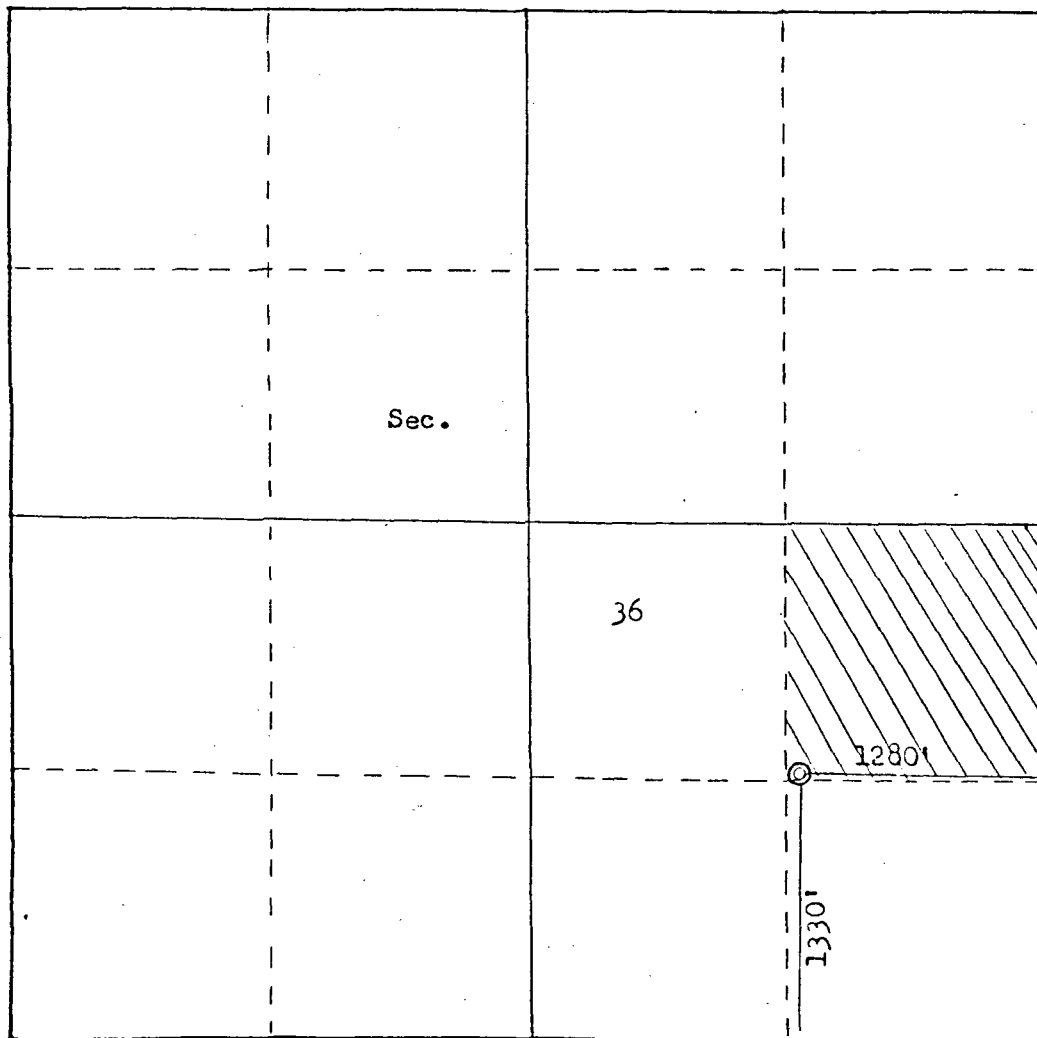

Operator TESORO PETROLEUM CORPORATION			Lease HOSPAN SAND UNIT			Well No. 102		
Unit Letter I	Section 36	Township 18N	Range 9W	County McKinley				
Actual Footage Location of Well: 1330 feet from the South line and 1280 feet from the East line								
Ground Level Elev. 7015	Producing Formation Hospah Sand		Pool Upper Hospah			Dedicated Acreage: 40 ^{Joint with HSU #101+103} Acres		

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
