Application for Unorthodox Location
Jack Frost Gas Com "C" No. 1E
Basin Dakota ~~Field~~ Pool
San Juan County, New Mexico

Amoco Production Company hereby requests approval of an unorthodox well location for the Jack Frost Gas Com "C" No. 1E. The proposed location is 1520' FNL and 450' FEL of Section 26, T27N, R10W, San Juan County, New Mexico.

This well was restaked in the unorthodox location at the request of Bill Gregg, Recreational Director of the Bureau of Land Management, because of its close proximity to recreation facilities.

There are no offset lease holders as shown on the attached nine section plat.

Yours very truly,

S. D. Blossom

Re: Application for Non-Standard
Location: Jack Frost Gas Com C

No. 1E Sec. 26, T-27-N, R-10-W

San Juan County

We may not process the subject application for non-standard location until the required information or plats checked below (is)(are) submitted.

- ☐ A plat must be submitted clearly showing the ownership of the offsetting leases.
- ☐ A statement must be submitted that offset owners have been notified of the application by certified mail.
- ☐ A plat must be submitted fully identifying the topography necessitating the non-standard location.
- ☒ Other: Please submit some detail as to the nature and location of the "recreation facilities" requiring the unorthodox location.

Very truly yours

Mr. Rob Murphy
Amoco
501 Airport Drive
Farmington, New Mexico 87401

Dear Sir:

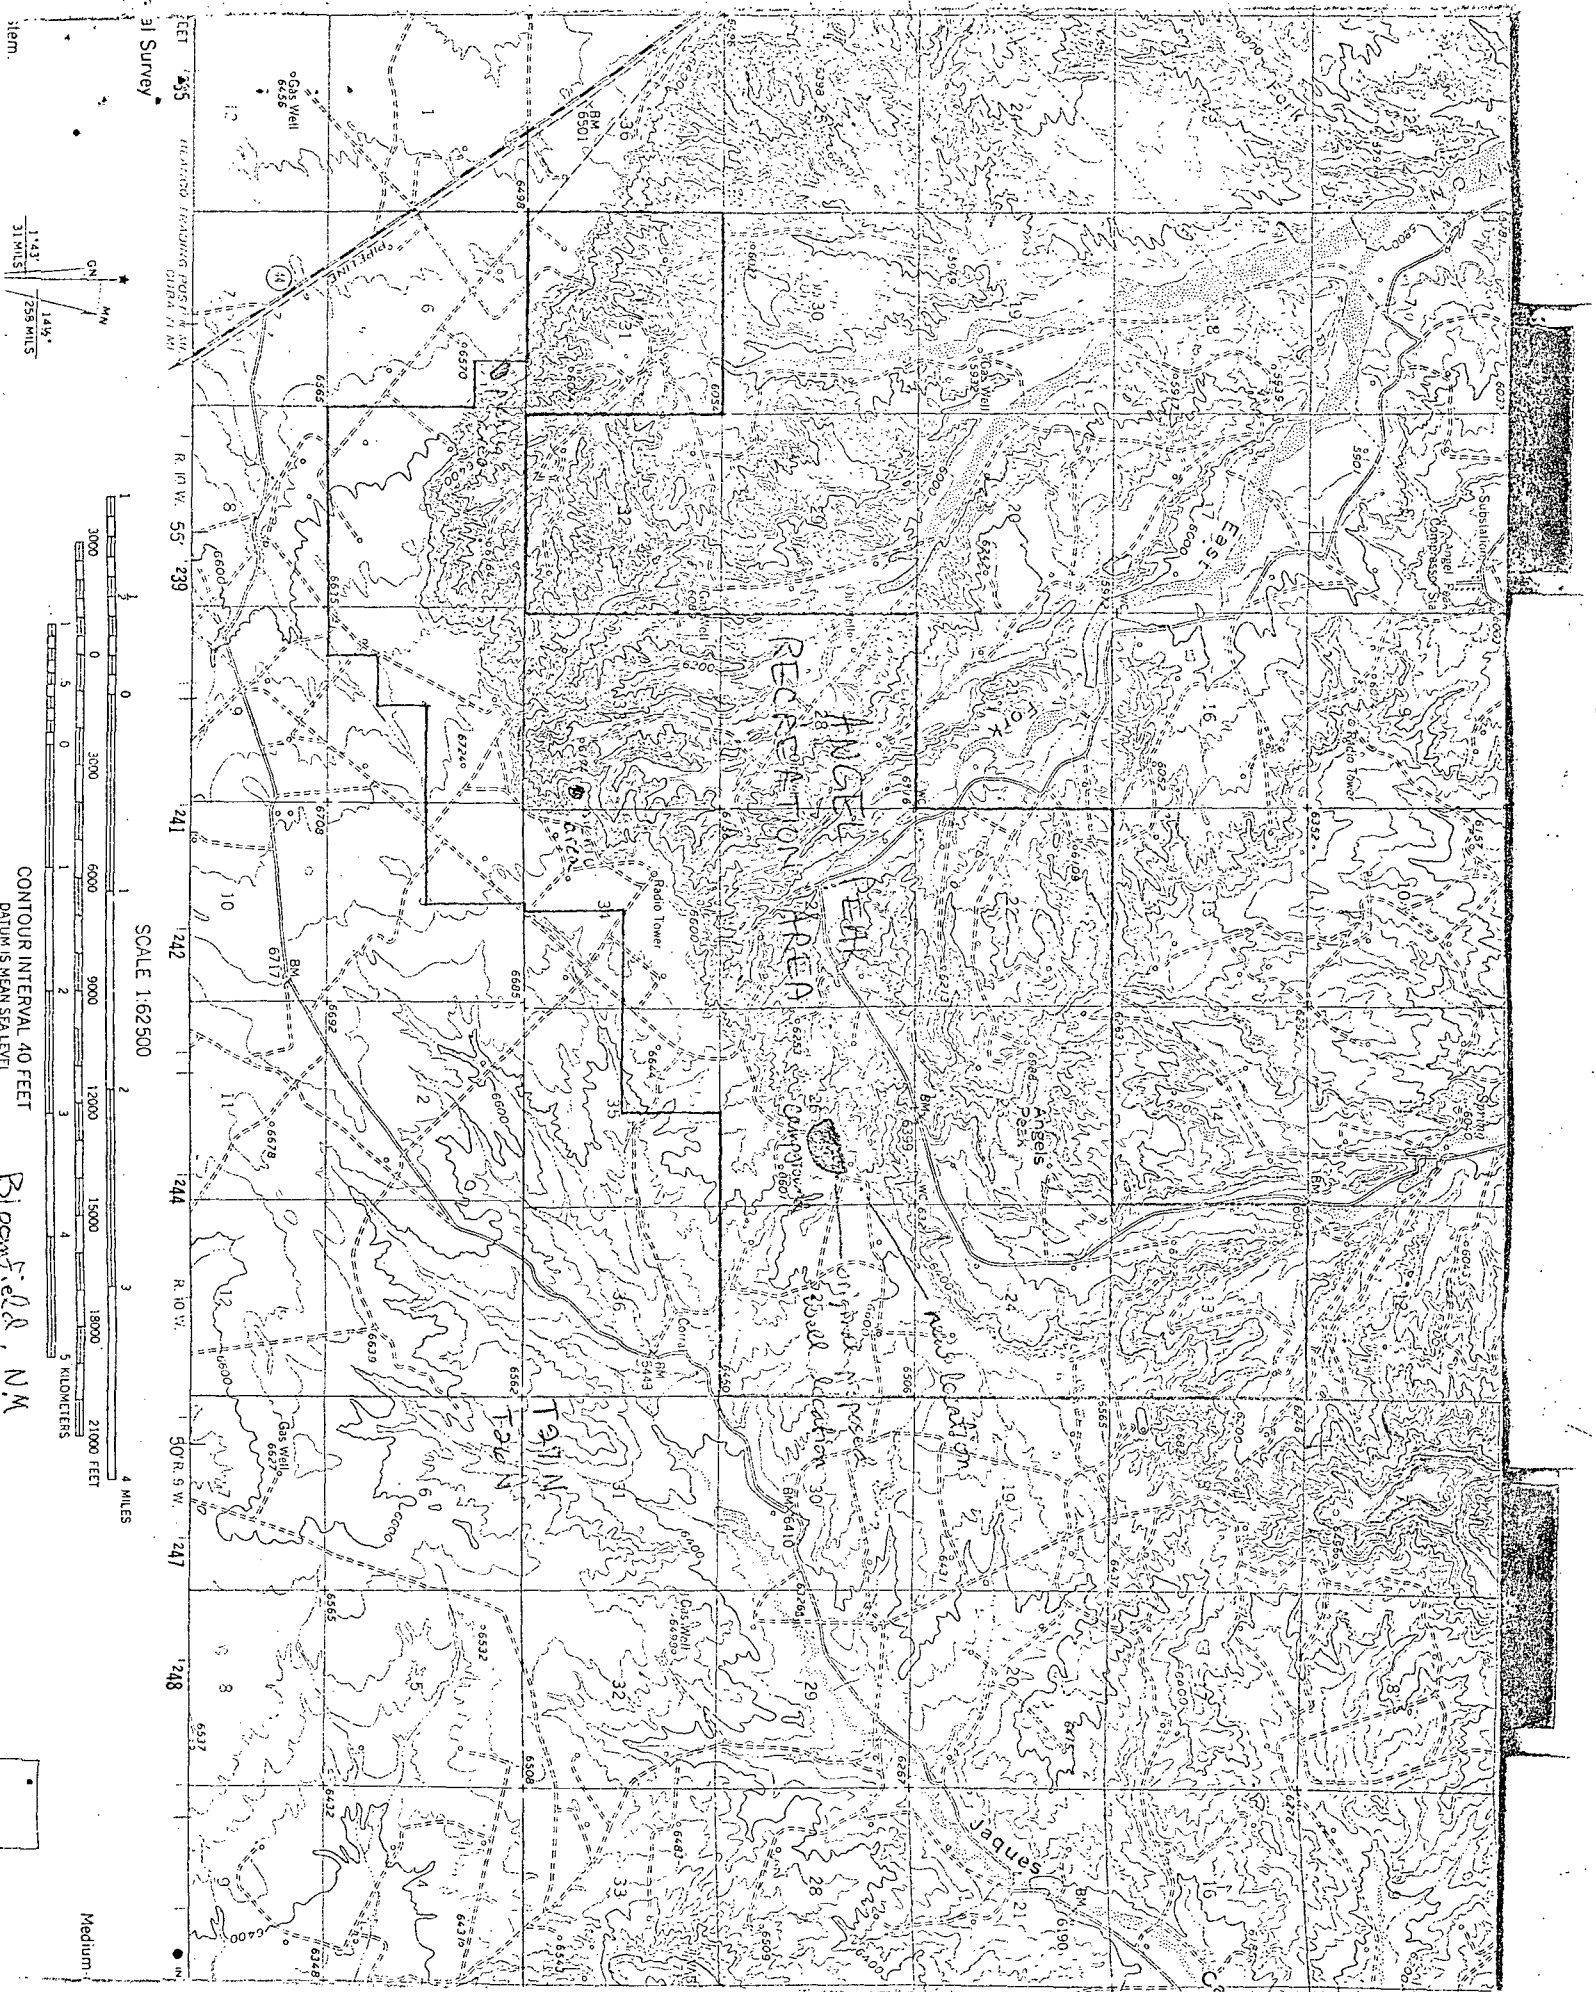

The Bureau of Land Management has designated the Angel Peak Recreation Area and is committed to managing the area for its scenic and recreation values. This does not exclude development of oil and gas but occasionally a situation arises in which we feel that a proposed well site can be located in a manner so as to minimize the aesthetic impacts to the recreation area. This is the case with Amoco's proposed Jack Frost Com "C" 1E. The original proposed location was situated next to the Angel Peak Campground and was directly adjacent to the campground loop road and close to a couple of developed campsites. The site was in an area with quite a bit of vegetation and relief and since the proposed well was to the Dakota formation, a significant amount of surface disturbance could be expected.

After a field inspection of the site, Bill Gregg, Recreation Planner and Jack Spears, Environmental Inspection determined that the original location was undesirable and found an alternate site that would be much more suitable. The new location is beyond a small ridge and can't even be seen from the campground. It is also in an area of less relief and would consequently require less dirt work. The BLM is therefore proposing that Amoco move to the new location (1520 FNL, 450 FEL, Section 26, T. 27 N., R. 10 W.) and would greatly appreciate your cooperation in this matter.

Sincerely yours,

for Gene Lewis
Area Manager
